Tech Prep Delaware

Tech Prep Delaware

Tech Prep Delaware: Logo

[1]Tech Prep Delaware (TPDE) is an educational agency designed to help high school students gain academic knowledge and technical skills that will lead to college credit.

Delaware Technical Community College partners with Tech Prep Delaware to give students the opportunity to take courses in the 10th, 11th, and 12th grade that will provide for advanced standing in selected associate degree programs if they enroll at the College and meet College prerequisites. Tech Prep Delaware programs are available at all Delaware public high schools. Interested students should talk to their guidance counselor or career and technical education teacher to see which career pathway courses qualify and connect to an advanced degree at the College.

For more information, please visit the Tech Prep Delaware page at http://www.techprepdelaware.org **[1]**

View articulation agreements by Pathway, Highschool and Delaware Tech Course [2].
