CHARLES L. TERRY CAMPUS
100 Campus Drive
Dover, Delaware 19904-1383
(302) 857-1000

Named in honor of the late Governor Charles L. Terry, Jr., the Terry Campus is located in the northern part of Dover, Delaware's capital city. The Campus serves as a technical higher education resource located in central Delaware. The Terry Campus prides itself on the personal attention it provides its students. Each matriculated student is assigned both a counselor and an advisor to help guide them through their chosen academic program. Over 6,900 full-time and part-time students enroll each year in diversified technical associate degree programs, diploma programs, and certificate and special interest offerings. Campus programs are primarily designed to be a resource for students to enhance employment skills, abilities, and knowledge in order to meet the needs of area businesses, industries, and government agencies.

All degree and diploma programs have published major curriculum competencies which identify the skills that students will possess upon successful completion of a program. Major curriculum program areas include engineering technology, health care, business, and public services. The Campus' Corporate and Community Training Division provides an additional resource for individuals and employers with customized training and retraining services.

The Campus' learning environment is a combination of both lecture and individualized courses depending upon course content. Classes meet in the Terry Building, the Science and Engineering Technology Center, the Conference and Training Center, and the adjacent Education & Technology Building. Classroom instruction is supplemented by individualized resource learning labs. The lab facilities provide students with flexible and varied opportunities to master course objectives and curriculum competencies.

In addition, many courses are offered on CD-ROM, online, and as telecourses.

Classes are conducted year round with day, evening and weekend offerings. Applicants are accepted for each of the academic semesters, as well as the summer session. Financial aid and scholarships are available to qualified applicants. The Conference Center provides satellite conferencing with downlink capability, distance learning with one way audio/video communication, room and seating for 200 people which can be divided to accommodate simultaneous programs.

LIBRARY

The Terry Campus library provides academic support to students and faculty through a variety of services. A technical lending library of books, periodicals and audiovisuals, along with online resources assure that students have opportunities to develop information literacy skills as they complete course assignments and projects. Librarians provide course-integrated instruction sessions, which include providing students with guided experiences in using the online College catalog and indexes. A College Libraries Home Page provides access to many library resources and services to distance learners. Consultation with librarians is offered to all students through regular reference and referral services and through enrichment sessions scheduled throughout the year. Access to information and materials beyond the college libraries is supported by the Internet, OCLC, document delivery services, and affiliation with the Delaware Division of Libraries and other Delaware libraries. Operating hours during the regular academic year are Monday through Thursday, 8:15 A.M. to 10:00 P.M.; Friday, 8:15 A.M. to 4:30 P.M.; and Saturday, 9:00 A.M. to 1:00 P.M. Sunday, closed.

MICROCOMPUTER LABS

Microcomputer labs are located throughout the campus to assist students (supplement classroom activities) in areas such as reading, writing, math, business, computer information, engineering, and computer graphics. Staffed by qualified technicians, the labs are open during both day and evening hours to accommodate students' busy schedules.

CAREER PLANNING & PLACEMENT

Located within the Campus' Assessment Center, the Placement Office assists students in the identification and pursuit of their career goals. Computerized career guidance tools such as DISCOVER and The Self-Directed Search are offered free of charge to help students and members of the community. Information regarding specific careers is on file in the career library. A bulletin board with job postings for full and part-time positions is located outside the Assessment/Career Center. Individual career counseling is available on an appointment basis.

RECREATION FACILITIES

The Terry Campus has a Fitness Center that houses Nautilus and other fitness-related equipment. The programs provide regular exercise, health/wellness education and recreational workouts for the benefit of the students and employees. Cardio-Kinetics, Inc. has a full-time Exercise Physiologist who manages and operates the fitness center Monday thru Friday. The professionally staffed facility is open daily to all full-time students and available to part-time students for a nominal fee.

Outdoor facilities include tennis, volleyball and basketball courts, athletic fields, walking trails, and a picnic pavilion.

PROGRAMS OF STUDY

Terry Campus

ASSOCIATE IN APPLIED SCIENCE DEGREE PROGRAMS (A.A.S.) (Unless otherwise indicated)

ASSOCIATE OF ARTS IN TEACHING DEGREE PROGRAM (A.A.T)

- **Allied Health**
Emergency Medical Technology
(Paramedic)
Option: EMT: Management
Medical Assistant Technology
- **Applied Agriculture Technology**
Options: Agribusiness Management
Turf Management
- **Architectural Engineering
Technology**
Options: Interior Design
- **Associate Degree Nursing**
- **Business Administration Technology**
Options: Accounting
Business Administration
Business/General
Human Resources
Management
Management Information
Systems
Management & Marketing
- **Civil Engineering Technology**
Option: Survey & Materials
- **Computer Information Systems
Technology**
Option: Microcomputers and
Networking
- **Computer Network Engineering
Technology**
- **Construction Management Technology**
- **Criminal Justice Technology**
Options: Law Enforcement
Criminal Justice
Management
Homeland Defense &
Emergency Management
- **Culinary Arts Technology**
- **Early Childhood Education
Technology**
Options: Early Care & Education (O-K)
Early Childhood Development

- **Education**
Math Secondary Education (A.A.T.)
Paraeducator Technology
Option: Elementary Education
- **Electromechanical Engineering
Technology**
- **Electronics & Computer Engineering
Technology**
Options: Biomedical Electronics
Computer Engineering
Technology
Electrical Engineering
Technology
- **Electronics/Electrical Engineering
Technology**
Options: Math/Science Concentration
- **Entrepreneurship**
- **Human Services Technology**
Options: Drug and Alcohol Counseling
- **Office Administration Technology**
Options: Office Software Specialist
Paralegal
- **Visual Communications Technology**
Options: Advertising Design
Multimedia Design
Photo Imaging

DIPLOMA PROGRAMS

- **Allied Health**
Health Career Studies
Medical Assistant Studies
Medical Coding Studies
- **Applied Agriculture Technology**
Turf Management Studies
- **Biotechnology**
Science Career Studies
- **Business Administration Technology**
Accounting Studies
