

## CHEMISTRY TECHNOLOGY: MATH CONCENTRATION

Delaware Technical & Community College • [www.dtcc.edu/connecteddegree](http://www.dtcc.edu/connecteddegree)

*An opportunity to gain an associate degree from Delaware Tech and a bachelor's degree from Delaware State University.*

### **YOUR PATH TO A BACHELOR'S DEGREE**

Delaware Tech has established agreements with four-year colleges and universities that connect Delaware Tech associate degree programs with bachelor's degree programs to create smooth transfer opportunities for you. These Connected Degree programs enable you to complete your associate degree and then transfer to a four-year degree program as a junior.

### **THE CONNECTED DEGREE 2 + 2 CURRICULUM**

Delaware Tech's associate degree program in Chemistry Technology: Math Concentration teaches students the processes and procedures of laboratory work, modern instrumentation and chemical principles in preparation for employment in research and in a laboratory setting. This option also prepares students for further study in Chemistry at the baccalaureate level.

Delaware State University's bachelor's degree program in Chemistry provides a strong foundation for students wishing to concentrate in chemistry and/or chemical engineering. The curriculum meets the standards adopted by the American Chemical Society for undergraduate professional education in chemistry. Graduates are prepared for a variety of positions in areas such as research, sales, technology, and engineering. Additionally, program graduates may choose to continue their education through graduate study.

### **VALUE FOR YOU**

By completing your associate degree at Delaware Tech, you'll receive excellent instruction in small classes at a campus close to home. Delaware Tech's affordable tuition can reduce the overall cost of your college education, making the completion of your bachelor's degree more manageable.

### **MAKING THE CONNECTION**

Refer to the Connected Degree curriculum (on the reverse side of this page) for the sequence of courses needed to complete this program. Call Delaware Tech and let us help you follow the path to your bachelor's degree.
