

CHEMISTRY: MATH CONCENTRATION

Delaware Technical & Community College

www.dtcc.edu/connecteddegree

An opportunity to gain an associate degree from Delaware Tech and a bachelor's degree from Delaware State University.

YOUR PATH TO A BACHELOR'S DEGREE

Delaware Tech has established agreements with four-year colleges and universities that connect Delaware Tech associate degree programs with bachelor's degree programs to create smooth transfer opportunities for you. These Connected Degree programs enable you to complete your associate degree and then transfer to a four-year degree program as a junior.

THE CONNECTED DEGREE 2 + 2 CURRICULUM

Delaware Tech's associate degree program in Chemistry: Math Concentration teaches students the processes and procedures of laboratory work, modern instrumentation and chemical principles in preparation for employment in research and in a laboratory setting. This option also prepares students for further study in Chemistry at the baccalaureate level.

Delaware State University's Bachelor of Science program in Chemistry Pre-Profession provides a strong foundation in the fundamental principles of chemistry. The Chemistry curriculum meets the standards adopted by the American Chemical Society for undergraduate professional education in chemistry. The program provides a proper sequence of courses for those students preparing to enter medical, dental, or other health professional schools.

VALUE FOR YOU

By completing your associate degree at Delaware Tech, you'll receive excellent instruction in small classes at a campus close to home. Delaware Tech's affordable tuition can reduce the overall cost of your college education, making the completion of your bachelor's degree more manageable.

MAKING THE CONNECTION

Refer to the Connected Degree curriculum (on the reverse side of this page) for the sequence of courses needed to complete this program. Call Delaware Tech and let us help you follow the path to your bachelor's degree.

*DTCC students are strongly recommended to take MAT 282, which transfers for DSU's 25-252, Calculus II. as a post associate degree course					See your advisor for proper selection of courses to meet DSU's requirement of one African-American Experience and two multicultural courses.				
<ul style="list-style-type: none"> • ⁺Students must complete a minimum of 122 credits for the bachelor's degree in Chemistry Pre-professional at DSU. Credits remaining for bachelor's degree completion are based on the physics course sequence taken at DTCC. • Course offerings by semester may vary. See your advisor. • RDG 120, Critical Reading and Thinking, is a required DTCC course unless the student is exempt.
