

RADIOLOGIC TECHNOLOGY

Delaware Technical & Community College • www.dtcc.edu/connecteddegree

An opportunity to gain an associate degree from Delaware Tech and a bachelor's degree from the Widener University.

YOUR PATH TO A BACHELOR'S DEGREE

Delaware Tech has established agreements with four-year colleges and universities that connect Delaware Tech associate degree programs with bachelor's degree programs to create smooth transfer opportunities for you. These Connected Degree programs enable you to complete your associate degree transfer as a junior.

THE CONNECTED DEGREE 2 + 2 CURRICULUM

Delaware Tech's associate degree program in Radiologic Technology includes didactic, laboratory, and clinical experiences in preparing students with the knowledge and skills necessary to be eligible for certification and employment as radiologic technologists. The Radiologic Technology Program also provides a foundation for further studies at the bachelor's degree level. The program is accredited by the Joint Review committee on Education in Radiologic Technology (JRCERT).

Widener University's Bachelor of Science degree in Allied Health offers continuing education to those holding an associate's degree or hospital certificates in approved allied health professions. This degree offers a choice of either a Certificate in Applied Supervision or Instructional Methods and Technology, permitting students to complete a minor or to select courses that will enhance personal and professional goals.

VALUE FOR YOU

By completing your associate degree at Delaware Tech, you'll receive excellent instruction in small classes at a campus close to home. Delaware Tech's affordable tuition can reduce the overall cost of your college education, making the completion of your bachelor's degree more manageable.

MAKING THE CONNECTION

Refer to the Connected Degree curriculum (on the reverse side of this page) for the sequence of courses needed to complete this program. Call Delaware Tech and let us help you follow the path to your bachelor's degree.
