

Disallowing the Printing of Tests in Blackboard

From a Newly Created Test:

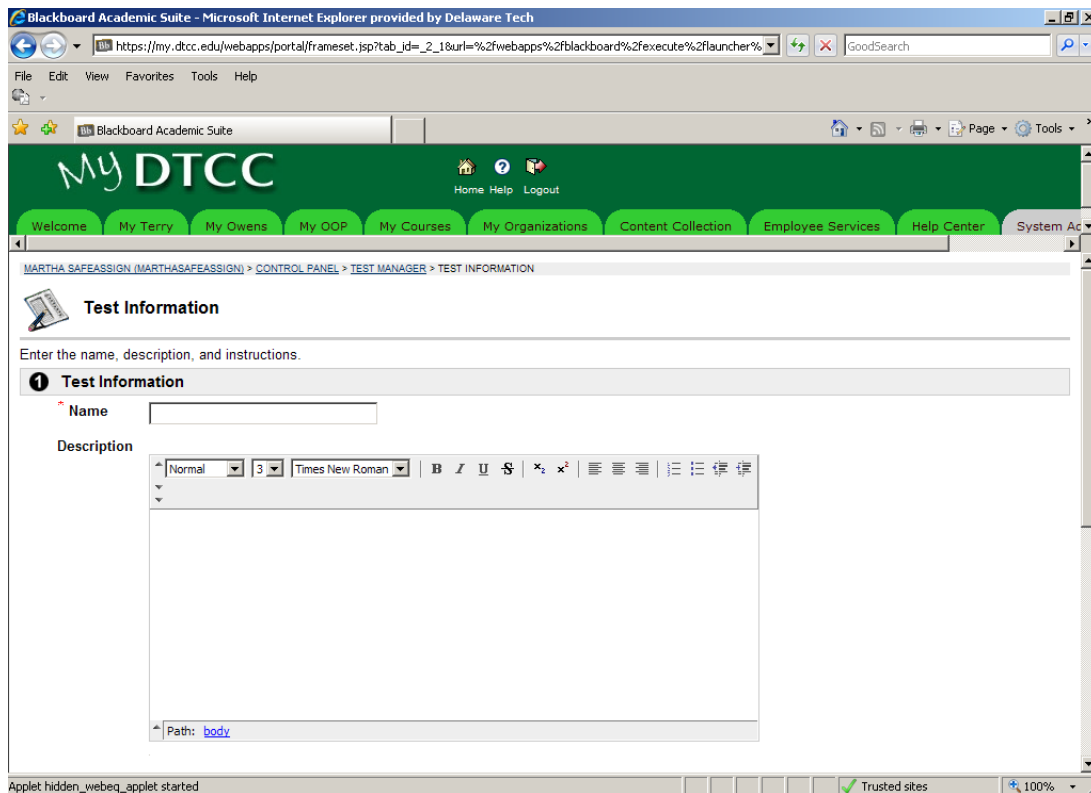

Please note: The HTML code **MUST** be placed in *Instructions* in *HTML* and **MUST** be placed **BEFORE** you deploy the test.

When creating a new test from scratch, place the below text in the Instructions box in HTML format. You may write directions for taking the exam in the Description area.

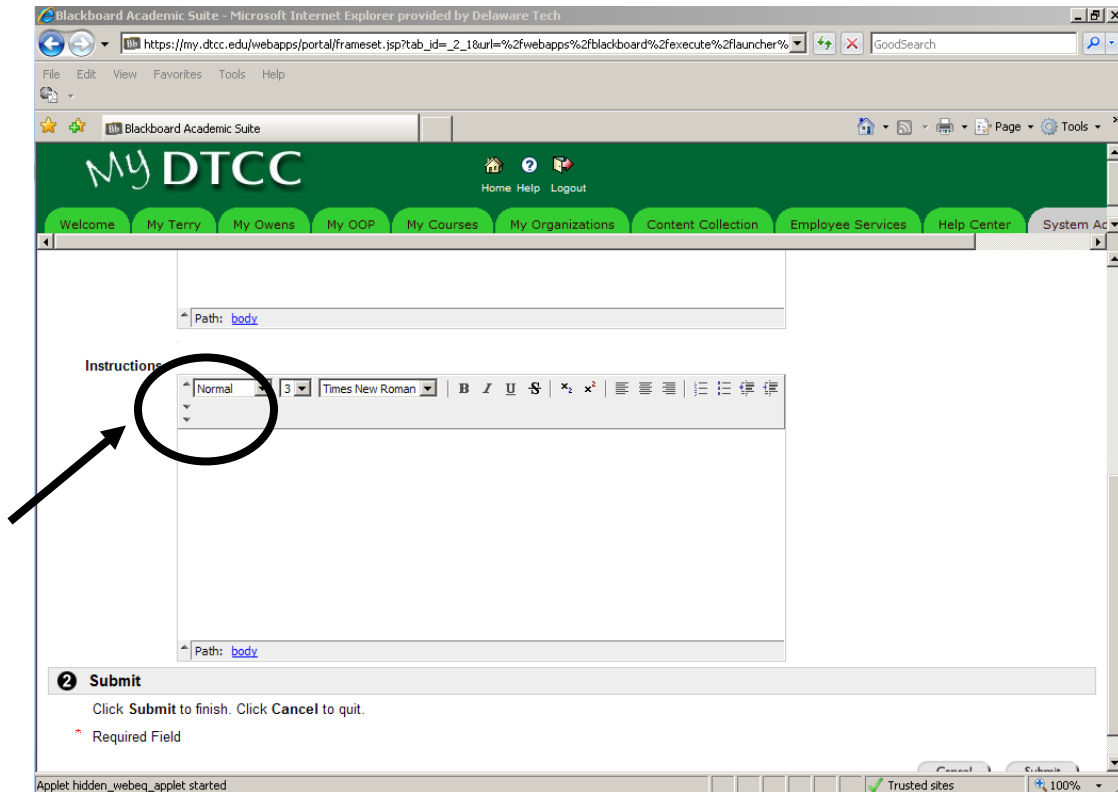

```
<P></P>
<P>&nbsp;</P>
<STYLE type=text/css>@media print {BODY
{display:none}!important}</STYLE>
<SCRIPT language=Javascript
src="http://www.blackboard.niu.edu/blackboard/javascript/noprintcopy.js
"
> </script>
<STYLE type=text/css>@media print {BODY {display:none}}</STYLE> <SCRIPT
language=Javascript
src="http://www.blackboard.niu.edu/blackboard/javascript/noprintcopy.js
"
> </SCRIPT>
<STYLE type=text/css>@media print {BODY {display:none}}</STYLE>
```

To add the above script to the test instructions follow the below steps:

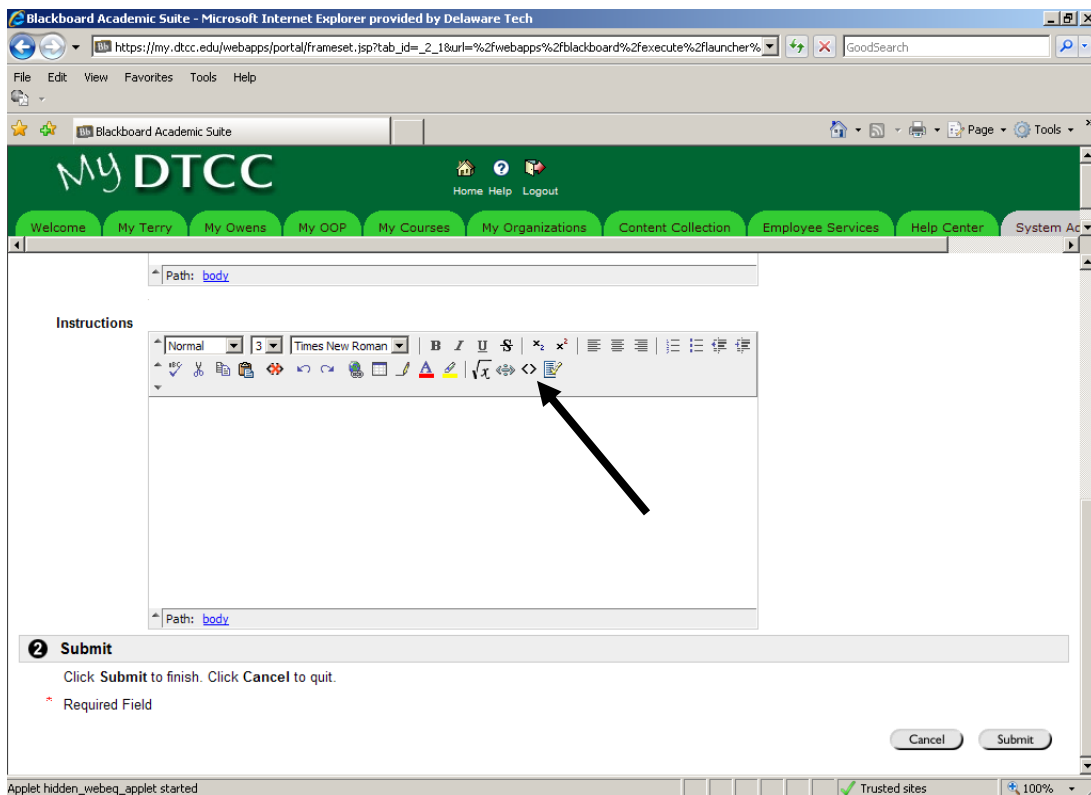

STEP 1 From the Test Information Page, after typing in the test name and description, scroll down to *Instructions*.

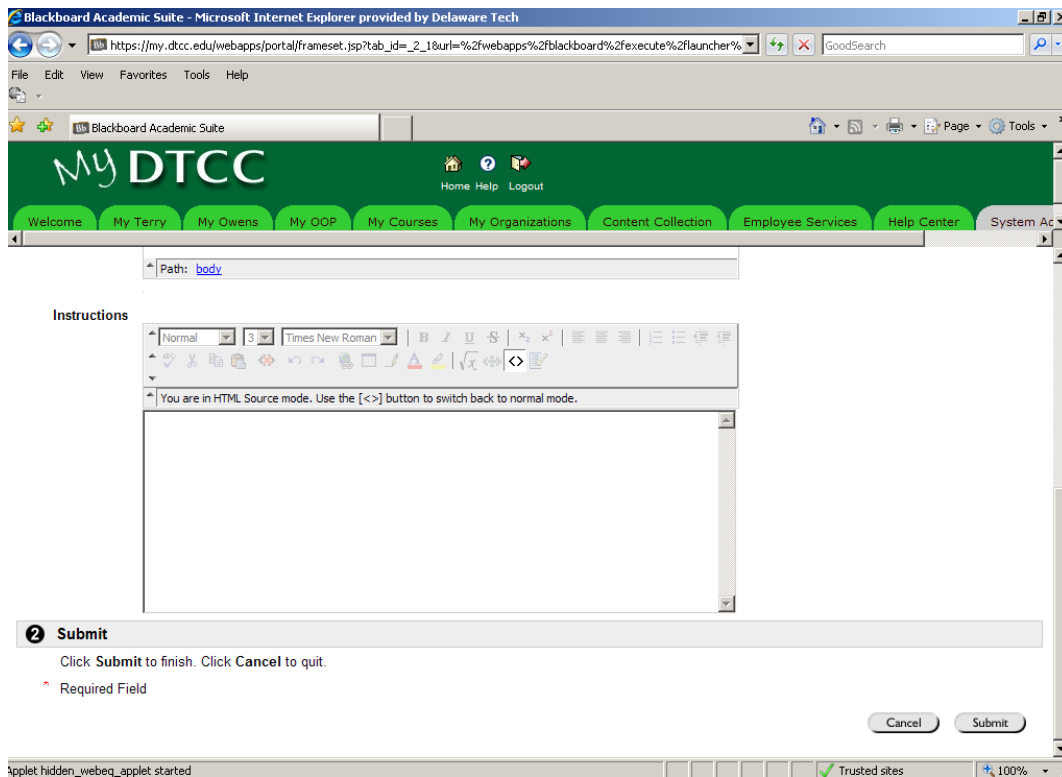

STEP 2 Click on the middle arrow to view the toolbar.

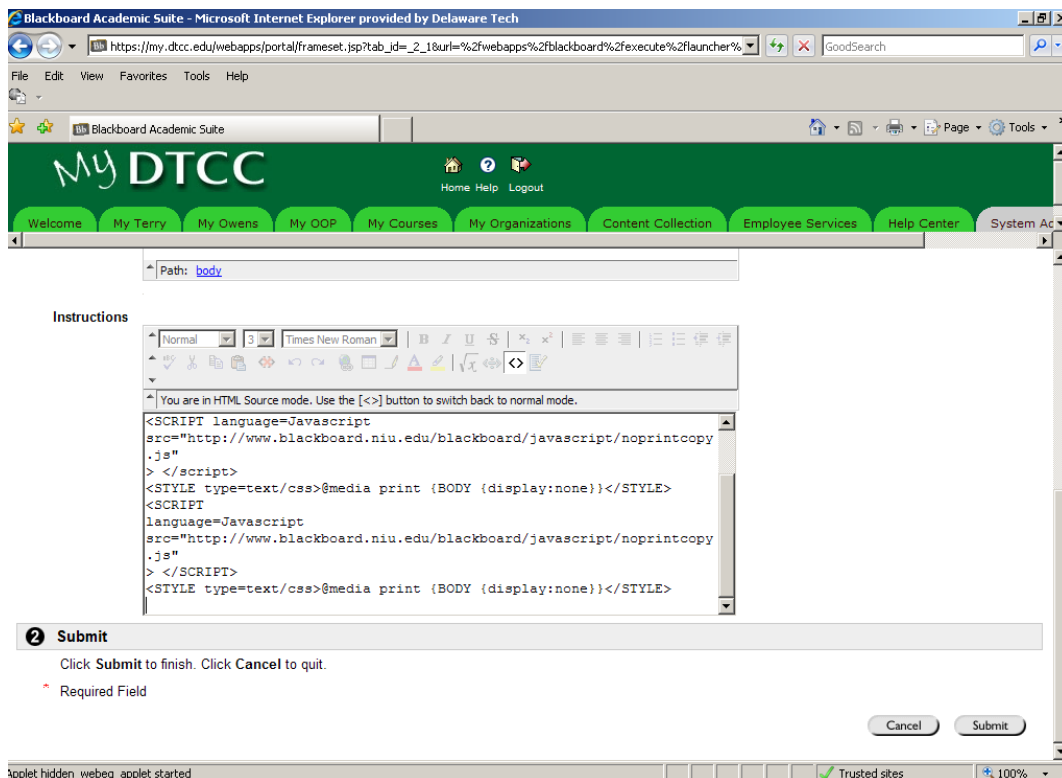

STEP 3 Click on the <> Icon to Toggle HTML Source Mode

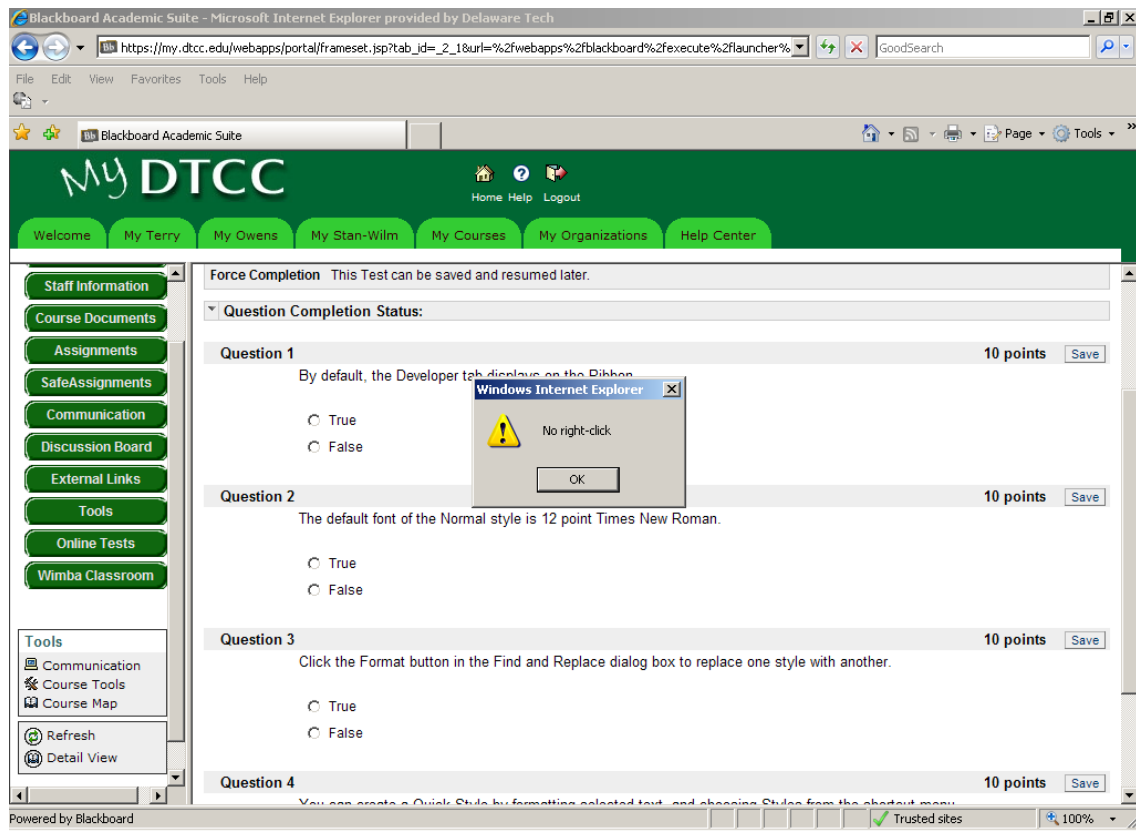

STEP 4 Paste the HTML code into the box and click **Submit**.

MLSW 12/2/09

Once the test is deployed and the student takes the test, when he/she tries to right mouse click to print, the option is disabled.

From Test already in the Test Manager, but have not been deployed.

STEP 1 From the Test Manager, click the *Modify* button next to the test. Then repeat Steps 1-4 From a Newly Created Test.
