

# You Can Insure Your Child's Health For Less Than \$1 Per Day

If your family qualifies for the Delaware Healthy Children Program, your child or children can be covered for doctor visits, prescriptions, dental, hospital visits and tests.

The monthly cost for this health coverage is just \$10, \$15 or \$25, depending on your income. The cost is the same no matter how many children are in your family.

The Delaware Healthy Children Program provides families on limited incomes with comprehensive health coverage at low-cost.

To find out if you and your children qualify, simply complete and return the attached application, or call 1-800-996-9969.

This special outreach is a joint effort by Insurance Commissioner Matt Denn, Delaware Health and Social Services and the Delaware Department of Education.

**This low-cost health insurance can make a big difference in your children's lives. It's a special plan that makes health insurance extra affordable.**

**The plan covers:**
