

# ELEMENTARY EDUCATION

*An opportunity to gain an associate degree from Delaware Tech and a bachelor's degree from Delaware State University.*

## **YOUR PATH TO A BACHELOR'S DEGREE**

Delaware Tech has established agreements with four-year colleges and universities that connect Delaware Tech associate degree programs with bachelor's degree programs to create smooth transfer opportunities for you. These Connected Degree programs enable you to complete your associate degree transfer as a junior.

## **THE CONNECTED DEGREE 2 + 2 CURRICULUM**

Delaware Tech's associate degree program in Elementary Education prepares students to transfer to a four-year college or university to complete their bachelor's degree and become certified to teach in an elementary school. Graduates of this option are prepared to enter the workforce immediately as a paraeducator in a school setting or they may choose to continue their education.

Delaware State University's Elementary Education program prepares teachers to work with young children in public, private, and charter school systems. Graduates from this NCATE-accredited program are prepared to respect diversity and demonstrate constructivistic knowledge, skills, and dispositions to work effectively with young children and families.

## **VALUE FOR YOU**

By completing your associate degree at Delaware Tech, you'll receive excellent instruction in small classes at a campus close to home. Delaware Tech's affordable tuition can reduce the overall cost of your college education, making the completion of your bachelor's degree more manageable.

## **MAKING THE CONNECTION**

Refer to the Connected Degree curriculum (on the reverse side of this page) for the sequence of courses needed to complete this program. Call Delaware Tech and let us help you follow the path to your bachelor's degree.
