

MIDDLE-LEVEL MATH EDUCATION: ENGLISH MINOR

An opportunity to gain an associate degree from Delaware Tech and a bachelor's degree from Wilmington University.

YOUR PATH TO A BACHELOR'S DEGREE

Delaware Tech has established agreements with four-year colleges and universities that connect Delaware Tech associate degree programs with bachelor's degree programs to create smooth transfer opportunities for you. These Connected Degree programs enable you to complete your associate degree and then transfer to a four-year degree program as a junior.

THE CONNECTED DEGREE 2 + 2 CURRICULUM

Delaware Tech's Middle Level Mathematics Education (MLME) associate degree program is the first step towards a career in teaching middle school mathematics. This program will prepare students for transfer to a baccalaureate degree program in a four-year institution. The MLME program will provide rigorous math course work, integrated educational technology, and experiences in a middle school setting. Students who pursue this degree will major in math and have the option to enroll in one of three minor areas of study: science, social science or English. This pathway will enable graduates to obtain dual certification in mathematics and their minor field.

Wilmington University's Bachelor of Science degree program in Middle Level Education – (Grades 6-8) is nationally recognized by the National Middle School Association (NMSA) and by the National Council for Accreditation of Teacher Education (NCATE). Students who wish to teach at this level declare one area (math, science, English, or social science) as his/her major concentration along with an area of minor concentration. Graduates are prepared to become certified to teach at the middle school level.

VALUE FOR YOU

By completing your associate degree at Delaware Tech, you'll receive excellent instruction in small classes at a campus close to home. Delaware Tech's affordable tuition can reduce the overall cost of your college education, making the completion of your bachelor's degree more manageable.

MAKING THE CONNECTION

Refer to the Connected Degree curriculum (on the reverse side of this page) for the sequence of courses needed to complete this program. Call Delaware Tech and let us help you follow the path to your bachelor's degree.
