

Delaware Technical & Community College Early Childhood Education Department

EARLY CHILDHOOD EDUCATION TECHNOLOGY

CONTENT GOALS

Students will acquire the following PGCs:

- ❖ Implement developmentally appropriate practices based on theories, norms, and milestones associated with development in early childhood.
- ❖ Analyze issues and social problems associated with early childhood including the identification of resources for problem resolution.
- ❖ Maintain a safe, healthy environment for children enrolled in early childhood programs.
- ❖ Plan developmentally appropriate environment for quality infant/toddler, preschool, and kindergarten programs.
- ❖ Assess and use a variety of positive guidance techniques with young children.
- ❖ Practice ethical principles relating to interaction patterns between participating stakeholders, including but not limited to, students, teachers, families, and community.
- ❖ Collect and share information on effective parenting techniques and programs for parents.
- ❖ Apply information regarding licensing requirement and legal issues affecting early childhood programs.
- ❖ Use both formal and informal assessment strategies.
- ❖ Plan and implement special services and education for children with disabilities.
- ❖ Design and evaluate comprehensive early childhood environments.
