

Types of Aid

While Delaware Tech has the lowest tuition in the region, finding ways to afford college is still a challenge for many students. Financial aid at Delaware Tech has increased from \$4.5 million in 1995 to \$32.6 million in 2010.

There are several types of aid available.

Federal assistance is available in the form of grants, loans and work study, and there is special information just for veterans. Scholarships are another form of aid that help you pay for your education that don't need to be paid back.

The [Delaware Department of Education](#) [1] administers 23 state-sponsored financial aid programs and eight private scholarship programs.

Have you checked into all your options?
