

Programs for HS Students

If you're a high school student, then you may be able to earn college credit while still in high school! Students who qualify may take college-level courses and earn credit toward their high school graduation and a college degree. There are many benefits including:

- Taking courses not offered by your high school
- Easing your transition by experiencing the college environment and college-level work
- Earning both high school and college credit at the same time
- Getting a head start on your college degree

Delaware Tech offers a number of programs for high school students as well as services to help you make the transition to college life. Explore the links on the left to find the ones that are right for you!
