

## Career Services

## Career Services

### Our Services

At Delaware Tech, we believe that career development is an ongoing journey. Career Services is here to help you plan your future. Whether you are trying to decide on a major, find a job or internship, write a résumé and cover letter, or improve your interviewing skills, we have the resources you need!

### Career Services Offerings and Resources

#### Career Workshops, Seminars, and Other Offerings:

Attend a variety of workshops and seminars offered year-round to enhance your professional knowledge, skills, and abilities. Enroll in the Career Services courses, including SSC 101 Exploring Careers and SSC202 Strategies for Finding and Keeping a Job.

#### Networking Events:

Participate in networking events to interact with potential employers for jobs and internships.

#### Career Advisement:

Meet face-to-face with a career services counselor to discuss your career goals and receive assistance with resume writing, cover letter development, interviewing strategies, and networking skills.

#### Career Library and Online Resources:

Visit the Career Services Center at your local campus for access to research tools to help with career

planning and development. Career Services encourages students to use [Delaware JobLink](#) [1] to post a resume and search for employment opportunities. In addition, other helpful job search engines are available on the [Career Services jobs webpage](#) [2]. Please contact the Career Services Office for assistance.

Effective December 5, Career Services has discontinued the job search software that was being used for MyCareer. Career Services is working to upgrade the resources and tools available online, and Career Services Counselors are available to help students build their resumes, conduct a job search, prepare for an interview, and develop other skills for a needed to find employment.

Dover
