

Nursing

Bachelor of Science in Nursing

STANTON CAMPUS

Spring 2020

The Bachelor of Science in Nursing program is an online degree program designed for current RNs who are ready to pursue the next level of their nursing education while working. The program will provide licensed registered nurses with baccalaureate-level education. The RN to BSN program builds upon the foundational knowledge and skills attained in previous nursing courses and experiences. Baccalaureate education prepares professional nurses with a broad knowledge base for practice with expanded roles encompassing advocacy, leadership, and scholarship. Coursework places emphasis on evidence-based nursing practice through a holistic approach enabling graduates to be designers, coordinators, leaders, and managers of collaborative care. The clinical portion contained within two courses focuses on population health and nursing leadership experiences.

PROGRAM SPECIFIC ADVISEMENT STATEMENT

Courses - Semester 1	Credits	Lecture	Lab
ENG 122 - Technical Writing-Comm	3	3	0
MAT 255 - Statistics I	3	3	1

*To complete program requirements, you must pass the above courses and earn at least **121 credits**. The number of courses and credits required for graduation may be more depending on your need for developmental education courses and the elective choices you make (if electives are a part of the program). Some programs also have college-level courses that you must take if you do not score at a certain level on the College Placement Test. If this applies to your program, the courses are listed at the top of the sequence sheet before the first semester of the course list.*
