COMMENCEMENT SPEAKER

Lisa Blunt Rochester

U.S. Representative

Congresswoman Lisa Blunt Rochester represents Delaware in the U.S. House of Representatives and serves as an assistant whip for House leadership. She also sits on the House Committee on Energy and Commerce. As the committee's only former statewide health official, she understands health care from a number of different perspectives – as an implementer at the Delaware Department of Health and Social Services, negotiator while serving as state personnel director, and advocate as CEO of the Metropolitan Wilmington Urban League. Rep. Blunt Rochester is focused on reducing the cost of health care and prescription drugs for middle-class families, addressing the disparity in outcomes for communities of color, and tackling our nation's opioid and addiction epidemic. She serves as a member of the Bipartisan Heroin Task Force, comprised of more than 100 members united with the common goal of tackling opioid addiction.

Rep. Blunt Rochester is a leading voice in Congress on economic and future of work-related issues. As a former secretary of labor and state personnel director, she leverages her professional experience to advocate for legislation that boosts start-up business growth, removes barriers for citizens re-entering society, and addresses college affordability and ballooning student debt.

As a member of the Congressional Progressive Caucus and a strong proponent of reforming our criminal justice system, she introduced first-in-the-nation legislation, the Clean Slate Act, sealing the federal records of former nonviolent offenders who remain crime-free and have earned a second chance. This bill would provide new opportunities for Americans to earn a good-paying job, pursue education and training, and rent or own a home.

With deep roots in the First State, Rep. Blunt Rochester grew up in Wilmington, graduated from Padua Academy, and worked her first job at the McDonald's on Market Street. She graduated from Fairleigh Dickinson University with a degree in International Relations and put herself through graduate school as a working mom, earning a master's degree in Urban Affairs and Public Policy from the University of Delaware.

She began her distinguished career in public service as an intern, and later a caseworker, in a congressional office where she helped Delawareans with their Social Security benefits, disability insurance claims, IRS disputes, and housing needs. Rep. Blunt Rochester would go on to serve in the cabinets of two Delaware governors and as CEO of the Metropolitan Wilmington Urban League.

She currently resides in Wilmington near her adult-aged children, Alex and Alyssa, and her daughter-in-law, Ebony.

THE MACE

Once a familiar weapon in medieval combat, the mace came to represent rulership, associated with the pride of a nation and its origins. Later, universities and colleges adopted the mace as a symbol of the academic quest for truth and wisdom. It is carried in academic processions not only to bring authority to the ceremonial occasion, but to symbolize the unity and aspirations of the college community.

ACADEMIC REGALIA

The use of the academic regalia costume, which seems to have originated in the English universities of Oxford and Cambridge, has been traditional in university life since the medieval times. In England and other European countries, academic attire generally is distinctive with each university so that very colorful ensembles of diverse styles are commonly used abroad.

Unlike European academic apparel, the academic costume of American universities follows a regular pattern, the styles and colors having been established by an intercollegiate agreement in 1895. Cap, hood, and gown are prescribed in style. Color variations indicate differences in the field of knowledge presented and conferring institutions.

The mortarboard cap is identical for holders of associate, bachelor's, and master's degrees. For holders of the doctorate, the cap may be made of velvet and the tassel may be gold. Candidates for degrees wear the tassel on the right side of the cap, changing it to the left side after the degrees have been conferred.

The hood is the most distinctive feature of academic attire. Used originally as a cowl, as a shoulder cape, and as a container in which to collect alms, it is now worn at the back, suspended near the shoulder. The hood for the master's degree is three and a half feet long with a three-inch border. The doctor's hood is four feet long and the border is five inches wide. The inner lining of the hood is in the official color or colors of the institution conferring the degree, while the color of the border indicates the field of learning in which the degree is earned.

Faculty members who wear a medallion are recipients of the Excellence in Teaching Award in recognition of excellence in instruction and outstanding contributions to the College.

Members of the graduating class are wearing academic regalia made up in colors of the College rather than in traditional black. The hoods worn by graduates receiving bachelor's degrees are black with apricot trim to represent the field of nursing.

Those who are graduating Summa Cum Laude (Highest Honors) wear a gold cord. Those who graduate Magna Cum Laude (High Honors) wear a silver cord, and those who graduate Cum Laude (Honors) wear a white cord. Phi Theta Kappa Honor Society graduates, who wear gold stoles, are recognized for outstanding scholarship, leadership, and service. Veterans and service members wear a red, white, and blue military service cord in recognition for their service to our country. Graduates who participated in a study abroad program wear a stole with a flag of the country in which they studied.
