

Mark T. Brainard, President

MEMORANDUM

TO: All Delaware Tech Employees and Students

FROM:  Mark T. Brainard, President

DATE: March 18, 2020

RE: Dental Health Center Operations (Wilmington Campus and DAFB)

On March 13, 2020, I suspended all non-emergency treatment of patients at the Wilmington Dental Health Center until further notice, but allowed routine cleanings and emergency procedures to continue at the recommendation of our medical partners.

On March 16, 2020, the American Dental Association (ADA) recommended the postponement of all elective procedures for the next three weeks to mitigate the spread of the COVID-19 coronavirus. Therefore, in accordance with the ADA's recommendation, I am suspending all non-emergency dental procedures, including routine cleanings, until Monday, April 6, 2020.

Emergency procedures are not covered by this directive and may continue as needed.

This guidance supersedes previous communication and is subject to change.
