Dear Students,

This letter is being sent to students with an interest in a nursing major on behalf of the three nursing Instructional Directors. The purpose of the letter is to notify prospective nursing students of a change in the policy for retaking the ATI – TEAS entrance exam. Effective immediately, we will allow students to retake the exam every 4 months rather than every 6 months. This will allow students another opportunity to retake the entrance exam between nursing clinical seat application deadlines.

Sincerely,

Karen Rollo, MSN, RN
