

DEL TECH **CONNECTS** PATHWAYS

The College is proud to be a partner in the Delaware Pathways initiative. Delaware Pathways is a vehicle to ensure all high school students have the opportunity to fulfill their educational goals and career aspirations. Career pathways begin in the public education system (K-12) through the development and implementation of Career and Technical Education (CTE) programs of study. These pathways allow for students to participate in work-based learning opportunities and provide articulated credit toward many Delaware Tech degree and workforce training programs.

Public & Community Health:

Earn Delaware Tech credits for successfully completing your high school pathway

Take Delaware Tech courses through your school's dual enrollment program or as a Delaware Tech visiting high school student
