

Professional Licensure Disclosure Respiratory Therapy

Delaware Technical Community College is accredited by the Middle States Commission on Higher Education. The college is reporting this information in compliance with Standard 2.G.3. The Respiratory Therapy programs are accredited by the Commission on Accreditation for Respiratory Care (COARC).

The Respiratory Care programs are designed to meet the educational requirements for respiratory therapy students in Delaware. If you intend to seek licensure outside of Delaware after finishing your program, use the link below to find information on the state or U.S. territory in which you intend to be licensed in order to identify whether Delaware Tech's Respiratory Therapy program meets, does not meet, or if it has not been determined if it meets the educational requirements for licensure. If Delaware Tech's program(s) has not determined if it meets the educational requirements for licensure in the state in question, it may meet all or a portion of the educational requirements. If that is the case, we recommend that you contact the licensing agency directly before beginning the Respiratory Care program at Delaware Technical Community College.

For more information, please contact athomas@dtcc.edu at the Georgetown campus or lboylan@dtcc.edu at the Wilmington campus.

This program meets the licensure requirements in all states except Alaska. Licensure requirements have not been determined in Alaska because licensure is not currently regulated.
