

RN to BSN Program Outcomes

Data for these outcomes are based on the 2017 ACEN Standards and Criteria

This program began in January 2017. There is no NCLEX pass rate to report, as students are required to have their RN to be eligible to matriculate.

Program Outcome 1: Program Completion- Program completion rate will be at or above 50% completing the program within 150% of program length from enrollment in the first RN to BSN nursing course.

Collegewide RN to BSN Program	Year	% of Students
Program Completion	2018	42%
Program Completion	2019	32%

Program Outcome 2: Job Placement- 85% of the Graduates will be employed 6-12 months after completion of the RN to BSN program. This is a Delaware Technical Community College employment benchmark in all programs collegewide. This survey was deployed through the college office of Institutional Effectiveness.

Collegewide RN to BSN Program	Year	% of Students
Job Placement	2018	95.4%
Job Placement	2019	100%
