

Mark T. Brainard, President

MEMORANDUM

TO: All Delaware Tech Employees and Students

FROM:  Mark T. Brainard, President

DATE: 1/13/21

RE: Revised Directive for COVID-19 Entry Screening

**NOTE: This revised directive does not apply to entry screening at a campus child development center. Entry screening for employees, children, and visitors who work in, attend, or visit a child development center will remain as set forth in my directive dated 12/2/20.**

This guidance supersedes previous communications and is subject to change.

Except as noted above, I am instituting the following requirements for all persons seeking entry to College buildings or participation in College programs until further notice:

ENTRY SCREENING:

1. Thermometers and signage will be stationed at all points of entry to College buildings and facilities that are open for general use by employees, students, contractors, and visitors. Every employee, student, contractor, or visitor who seeks entry into any College building or facility will have their temperature taken and must affirm that they are not experiencing COVID-19 symptoms and/or are otherwise prohibited from entering based upon the information contained in the accompanying signage. A child's parent or guardian may answer on behalf of the child.
2. No person with a fever of 100.4 degrees Fahrenheit or greater or who is otherwise experiencing symptoms of, or has been exposed to, COVID-19 may enter a College building or facility and should be advised to consult a health care professional for further guidance, and/or to obtain a COVID-19 test. No person may return to a College campus or facility until a health care provider or the Division of Public Health (DPH) has provided written clearance. Healthcare workers whose only exposure to COVID-19 occurs during the course of their employment and while wearing appropriate personal protective equipment are not disqualified from entering a College building or facility based on exposure alone.

OFFICE OF THE PRESIDENT
