

Sustainable Landscaping

Certificate Program Boot Camp

Are you looking for a new career?

Do you have a passion for environmentally responsible landscaping, or are you already working in the green industry and want to expand your skills?

This two week 80-hour training program will provide you with the knowledge and experience you need

to succeed in this rapidly growing field. Sustainable Landscaping skills will improve your marketability and the marketability of your company. Using sustainable landscaping practices, you can produce beautiful landscapes that reduce maintenance costs for your client while protecting the environment. Delaware Tech's Sustainable Landscaping Certificate Program provides students with a basic landscaping background and specific experience in sustainable landscape site assessment, installation, and maintenance. Students who successfully complete the program will be able to apply their knowledge to new and existing landscapes.

EYI 921 2B1 - Fee \$799

Starts October 28, 2013

10 sessions, 10/28- 11/8, M-F, 8:30 a.m. - 5:00 p.m.
