Entrepreneurship is Brewing Here!

Two local entrepreneurs take the stage each month for six minutes to present their business ideas and gain insight into how they can improve their businesses, get realtime feedback, and connect with their community.

Join us for 1 Million Cups Wilmington every second Wednesday of the month at 8 a.m. at Delaware Technical Community College’s Wilmington Campus.

If you would like to sign up to present your business idea or attend the event, visit http://www.1millioncups.com/wilmington. No registration is required. Open to everyone.

Come out and be a part of the entrepreneurial ecosystem! Start by visiting our website www.1millioncups.com/wilmington.

Are you ready to work for yourself?
Have a great idea but don’t know how to get it off the ground? Delaware Tech offers a variety of courses that will help you put your ideas into action.

Kauffman FastTrac® NewVenture™ for Entrepreneurs
FastTrac New Venture, specifically for entrepreneurs in the early stages of business development, provides the tools to develop and determine the viability of a business concept and outline the critical steps to a successful business launch. This nationally-recognized curriculum has a proven framework to help aspiring entrepreneurs begin their journey to success. Certified FastTrac affiliates teach the course in an interactive, group-oriented environment where participants are encouraged to network with one another to bolster their business ideas.

EYC 621, Fee $229
10/3-12/12 (no class on 11/28), R, 6-9 p.m., Stanton

The Three Pillars of Successful and Sustainable Nonprofit Organizations
Nonprofit organizations have good intentions, but many fail due to a lack of understanding/implementation of the three pillars: 1) Fundraising and Development 2) Management and Leadership, and 3) Strategic and Tactical Planning. This workshop is for volunteers, staff and leaders who want to ensure the long-term prosperity of their nonprofits. The instructor is a 25-year nonprofit executive and consultant.

ENC 752, Fee $69
10/11, F, 9 a.m.-4 p.m., Stanton

Grant Writing
This class will provide nonprofit and for-profit businesses with the tools and resources to acquire funding for their organizations. Learn the fundamentals needed to write successful grants and proposals. You will learn to identify potential donors through researching prospects as well as the best way to approach funders. The course will provide handouts and writing samples.

END 709, Fee $249
7/24-8/21, W, 6-9 p.m., Stanton
9/18-10/16, W, 6-9 p.m., Stanton
Personal Trainer Certification
Delaware Tech has partnered with W.I.T.S. to help you start an exciting and successful career as a Certified Personal Trainer by preparing you for the national exam. This challenging course consists of 15 hours of lecture on key topics like biomechanics, exercise physiology, fitness testing, equipment usage and health assessments and 15 hours of hands-on practical training labs. You will role play with assessing clients, programming, performing proper exercises, presentation skills and more.
Prerequisite: EYK 608 CPR and First Aid/AED (see page 42)
EYR 600, Fee $769+text
9/28-11/9 (no class on 11/2), S, 8 a.m.-3 p.m., Wilmington

Social Media Certificate
Are you a social media whiz? Turn your knowledge into a career. This 12-week certificate program is designed to give you the basics of social media marketing in order to help businesses have a presence on various social media platforms. Learn social media strategies, targeted content and management as well as analytics. Course will culminate with students presenting a social media campaign for a potential business.
EYC 616, Fee $459
9/24-12/10, T, 6-9 p.m., Stanton

Graphic Design Certificate
Great graphics leave a lasting impression. Learn the software every designer needs to know, including Adobe Photoshop, Illustrator, and InDesign. This 12-week course will cover digital images, illustrations and layouts as you learn how to create and edit images, work with layers and colors, and design business projects. Class assignments include creating a business card, a rack card, social media and web graphics.
EYF 603, Fee $459
9/5-11/21, R, 6-9 p.m., Stanton

Podcasting 101
This 8-week class will teach you everything you need to know to start your own podcast. Whether you’re looking to grow your business or share your passion about a topic, you’ll learn how to research a theme, decide on a title, record, edit, publish and promote your podcast.
ENC 753, Fee $99
9/9-10/28, M, 6-8 p.m., Stanton

Getting Paid to Talk
Have you ever been told you have a great voice? From audio books and cartoons to documentaries, commercials and more, there are many voice-over opportunities. This class, run in conjunction with the Voice Coaches Company, will introduce you to the growing field of voice-over. Discuss industry pros and cons and listen to samples from working voice professionals. In addition, you will have an opportunity to record a short professional script under the direction of the instructor. This class is lots of fun, realistic, and a great first step for anyone interested in the voice-over field.
ENC 750, Fee $39
12/9, M, 6:30-9 p.m., Stanton

Wedding and Event Planner Certificate
Always wanted to design and deliver a successful wedding or social event? This 40-hour program provides all the tools necessary to start your career as a professional wedding planner or to start your own wedding or event planning business. The classroom curriculum will cover the essentials of the event industry. Also learn about business plans, contracts, and working with vendors. Course materials included.
EYD 645, Fee $695
9/23-11/18 (no class on 10/30), MW, 7-9:30 p.m., Stanton

Flipping Real Estate
This one day workshop will teach you the step-by-step process of flipping houses right here in Delaware. It’s not easy and not for everyone, but it’s possible to make large profits working part or full time. Learn the process of evaluating a deal, negotiating, finding the funds, buying, renovating, and reselling for profit! There are risks and rewards to flipping houses, so come join us to learn about this topic and the importance of proper risk assessment for this business.
ENL 703, Fee $79
9/28, S, 9 a.m.-3 p.m., Stanton

QuickBooks for Small Business (see page 6)
Our career enrichment certificates will help you to advance in your job to enrich your career, or start a new career by gaining new skills and credentials. Choose from a variety of fields and interests.

**Accounting**

**Bookkeeper Certification**
Are you good with details and numbers? This 36-hour certificate program is designed for people to learn the skills needed to be an entry-level bookkeeper. Learn general ledger entry, preparation, and reconciliation of financial statements. Discuss common computer programs and be prepared to take the national bookkeeper exam on the last day of class.

**EYD 655, Fee $549+text**

Free Training
Food Preparation Technician Program

Training begins August 2019

In-Demand Food Preparation Training at Delaware Tech

Delaware Tech’s Stanton Campus is excited to offer FREE training to prepare unemployed and underemployed Delawareans for full-time employment in the food service industry. Funded by a Delaware Department of Labor Blue Collar Grant, our Food Prep Tech program is designed to teach food preparation skills that are in high-demand by Delaware’s restaurants and food service employers. This program prepares successful graduates for entry-level positions in the industry and provides an opportunity to earn up to four certificates in food preparation and eight credits in the College’s two-year culinary associate degree program which boasts a 100% graduate placement rate.

This program is designed for Delawareans who meet the following requirements:
• At least 18-years old with a high school diploma or GED.
• Able to demonstrate a 10th-grade reading and math level on the TABE academic assessment tool.
• Unemployed or underemployed with a passion for working in the food service industry.
• Able to commit to a 5-month intensive program totaling 240 hours (80 hours hands-on kitchen experience, 80 hours classroom time, 80-hour paid internship).
• Committed to obtaining full-time employment at the conclusion of the training.

Application process:
1. Attend one mandatory information session at the Stanton Campus
   • Monday, June 10, 6-8 p.m.
   • Monday, June 24, 6-8 p.m.
   • Monday, July 15, 6-8 p.m.
   • Monday, July 29, 6-8 p.m.
2. Complete Food Prep Tech application.
3. Take a reading and math assessment.
4. Submit to a background check and drug testing.
5. If selected, participate in an interview.

For more information, call 302.454.3956.

This is an equal opportunity employer/program funded by the Delaware Workforce Development Board and Department of Labor. Auxiliary aids and services are available upon request to individuals with disabilities.
Training for Early Care and Education I WIOA
Curriculum introduces the core competencies needed in the field of early care and education. Students will develop essential knowledge, skills and aptitudes that can enhance young children’s development in early education settings. This course is approved through childcare licensing in Delaware and the hours can be applied toward re-licensure. This is a hybrid course with both classroom and online instruction, training manual included in fee. Division of Child Care and Licensing now requires a High School Diploma or GED in order to register.
EYD 334, 66 Hours, Fee $249
9/17-12/5, TR, 6:30-9:30 p.m., Wilmington
To register for TECE I call 302.830.5204.

Training for Early Care and Education II WIOA
The Advanced Core Curriculum (Level 2) has 12 modules within 66 hours of child care training. Each training module has specific objectives that describe essential knowledge, skills and aptitudes within each topic area of the advanced core curriculum in early care and education. This course is approved through childcare licensing in Delaware and the hours can be applied toward re-licensure. This is a hybrid course with both classroom and online instruction, training manual included in fee. Division of Child Care and Licensing now requires a High School Diploma or GED in order to register.
Prerequisite: EYD 334
EYD 335, 66 Hours, Fee $249
9/16-12/4, MW, 6:30-9:30 p.m., Wilmington
To register for TECE II call 302.830.5204.

Real Estate
Investing in Real Estate
This five-week course is an introduction to various types of residential real estate investment. You will learn common risks and rewards for each type of deal and what it takes to be a successful real estate investor. Learn the processes of flipping and wholesaling real estate as well as how to buy and manage rental property. You will also learn the fundamentals of finding deals, how to measure and test your marketing, and how to market based on your budget. Learn to manage your contacts, gather relevant information, evaluate property, analyze the deal, and execute a contract.
ENL 709, Fee $149
9/16-10/14, M, 6-9 p.m., Stanton

Investing in Secured Real Estate Notes
This one-day workshop will cover the various types of real estate “paper” you can invest in: notes and mortgages, contracts, and options. You will learn about normal profit ranges for the different types of investments; how investments are secured; sources of investments; passive, semi-passive, and active investing; conducting due diligence and analysis of an investment opportunity; and using self-directed IRA and checkbook IRA accounts. This course will provide the how-to information to begin moving forward with investment opportunities that align with your goals.
ENL 711, Fee $79
10/5, S, 9 a.m.-3 p.m., Stanton

Flipping Real Estate (see page 5)

Other Careers
Start Your Career as a Security Guard
There is a high demand for security guards in our area. This class provides the mandatory training for those who want to pursue licensing to become a security guard in Delaware. A voucher for the security guard exam fee is included in the class price; students will be required to pass with a minimum of 75% to receive certification. Fingerprinting and a background check are also required by the State before a license will be given.
EYD 672, Fee $189
6/17-6/19, MTW, 5-9:30 p.m., Stanton
9/9-9/11, MTW, 5-9:30 p.m., Stanton
11/11-11/13, MTW, 5-9:30 p.m., Stanton

Operator of Public Pools
This workshop meets the training requirements of an approved pool operator as specified in the State of Delaware regulations on public pools. Learn about swimming pool maintenance and cost effective operations. Topics covered: filtrations, sanitation, pH/water balance, testing, spa troubleshooting, emergency procedures, and discussion on application of Delaware regulations.
EYD 610, Fee $179
12/6, F, 8:30 a.m.-4:30 p.m., Stanton

CompTIA Network+

CompTIA Network+ is a vendor neutral networking certification that is trusted around the world. It validates the essential knowledge and skills needed to confidently design, configure, manage and troubleshoot any wired and wireless networks. CompTIA Network+ certified individuals are in-demand worldwide. Network+ is an ISO-17024 compliant, technology certification that verifies the certified individual has the skills and knowledge needed to take on a pivotal role in building, managing, and protecting the critical asset that is the data network. Recommended as a first professional-level certification, Network+ can prepare you for jobs as a Network Administrator, Technician, or Installer. Textbook included; exam fee is not included. Seating is limited to 15 participants.

**Prerequisite:** Must be computer literate

**EYF 790, Fee $995**
9/9-12/16, MW, 6-9 p.m., ITC

---

Cisco Certified Entry Level Networking Technician (CCENT)

CCENT is a standalone, entry-level Cisco certification designed to open doors to a career in networking. It validates the skills required for entry-level network support positions. Topics include Open Systems Interconnect (OSI) models, Transport Control Protocol/Internet Protocol (TCP/IP) models, dynamic routing, IP addressing and Access Control List (ACL). Students will have the opportunity to examine network protocols, including Open Shortest Path First (OSPF) and Dynamic Host Configuration Protocol (DHCP). A CCENT certification can be the first step to obtaining your CCNA which can be taken in two parts (CCENT1 and CCENT2) and is also a prerequisite certification for CCNA Security.

**EYF 657, Fee $1,499**
1/14/20-3/5/20, TR, 6-9 p.m. and S, 9 a.m.-2 p.m., Wilmington

Looking for a career change?
You can be part of the health care system in only 3-5 months!
Delaware Tech offers certificate programs in the health care industry that provide the information and knowledge needed to stay current, advance in your job, or move into a new career field. Call 302.830.5204 for more information.

Plan to Attend an Information Session
Attend an information session to learn more about our health care courses. Please note some courses require attendance at an information session as a prerequisite.
July 2   |   August 6   |   September 3   |   October 1   |   November 5   |   December 3
All information sessions are held at 1 p.m. and 5 p.m., at the Wilmington Campus, 300 North Orange Street, Wilmington, DE, 19801

Dental Assistant
Learn the skills necessary to be successful in today’s dental assisting field as well as the dental profession. This course prepares students in the fundamentals of dental assisting. You’ll receive hands-on training in the state-of-the-art Delaware Tech Dental Center and participate in an internship in a local dental practice. Upon successful completion students will achieve the Delaware State Radiology Certification as well as become CPR certified. All textbooks, uniforms, certification exam, and CPR certification included. This course meets on both Tuesday and Wednesday evenings and Friday at the indicated times below. Some distributed education will be utilized.
Prerequisite: Attendance at an info session.
EYK 606, 180 Hours, Fee $3,995
9/10-12/20, TW, 6-9 p.m. and F, 9 a.m.-4 p.m., Wilmington

Certified Pharmacy Technician
Students will be trained to perform the duties of a pharmacy technician in both retail and hospital settings. Program elements include pharmacy theory and lab including pharmacy fundamentals, math, physiology, records and inventory and HIPAA regulations and compliance. Program includes internship rotations, one in a hospital and one in a retail setting. Tuition includes books, uniform, certification exam, and drug screening. Upon completion, students will be scheduled for the PTCB (Pharmacy Technician Certification Board) exam.
Prerequisite: Attendance at an info session.
EYK 607, 250 Hours, Fee $3,195
9/9-12/12, MTWR, 8:30 a.m.-1:30 p.m., Stanton

Medical Administrative Assistant
This program will provide training to prepare students with skills to handle all aspects of the medical office setting. The course includes basic office skills and electronic health records. The training includes a 50-hour internship experience. Upon successful completion students will be able to sit for two certificates; Certified Medical Administrative Assistant (CMAA) and Certified Electronic Health Records Specialist (CEHRS). Tuition includes books, background check, drug screening, and certification exams.
Prerequisite: Attendance at an info session.
EYC 600, 250 Hours, Fee $3,495
9/16-12/5, MTWR, 8:30 a.m.-2:30 p.m., Wilmington

Medical Coding Specialist
This course will prepare students to perform all of the duties required by an out-patient coder as well as prepare students for the National Certification exam. Students will be introduced to anatomy/terminology, physiology, pharmacology, ICD 10, CPT, HCPCS, as well as major nationwide medical insurance programs. Upon successful completion of the course, students will sit for the Certified Coding Specialist-Physician based (CCS-P) Examination as well as a one year student membership to AHIMA.
Prerequisite: Attendance at an info session.
EYC 609, 410 Hours, Fee $5,495
9/16/19-3/13/20, MTWR, 5:30-10 p.m., Wilmington

Certified Phlebotomy Technician
This course is certified by the American Society of Phlebotomy Technicians (ASPT). Students are trained to perform a variety of blood collection methods using proper techniques and precautions. Classes are taught in lecture, student laboratory and through clinical experiences. ASPT certification exam will be administered at the conclusion of the program.
Prerequisite: Attendance at an info session.
EYK 601, 200 Hours, Fee $3,995
9/9-12/20, MTWR, 1:30-4:30 p.m., Wilmington

Certified Nursing Assistant (CNA)
Students learn to safely perform basic nursing skills under the supervision of a licensed nurse in a health care facility. Communication, observation, and documentation skills are incorporated to aid the student in meeting the psychological, physical and environmental needs of the patient. Following successful completion of this course, students are qualified to take the Nurse Aid Competency Examination for certification. Tuition includes books, uniform, certification exam, CPR, drug screening and criminal background check.
Prerequisite: Attendance at an info session.
EYK 603, 180 Hours, Fee $2,395
9/9-11/21, MTWR, 8:30 a.m.-1:30 p.m., Wilmington
9/9-12/5, MTWR, 6-10 p.m., Wilmington

Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.
Polysomnographer (Sleep) Technician Certificate
This program prepares students to work as trainees with sleep technologists in the performance of diagnostic sleep studies that are required for the evaluation and treatment of sleep disorders. Sleep recordings are made during the patient’s usual sleep hours; techs may work during the night usually in 10-12 hour shifts. This program was developed in accordance with the American Academy of Sleep Medicine (AASM), and together with the required work experience (at least 9 months) and completion of the 14 AASM A-STEP self-study modules, will prepare the student to sit for the Registered Polysomnographic Technologist Exam. The course includes 90 hours of theory training, 30 hours hands on clinical experience, textbooks, and CPR certification.

Prerequisite: Attendance at an Information Session.

EYK 600, 120 Hours, Fee $3,495
9/9-12/2, MW, 5:30-9:30 p.m., Wilmington

Polysomnography CPSGT Review Course
This online course is aimed at allowing the A-STEP graduate the foundation of knowledge to be well-prepared to take the exam. Upon passing the exam the graduate will have the credential to apply for polysomnography positions in Delaware, Maryland, Pennsylvania, and New Jersey. For more information, call 302.830.5204.

EYK 605, 15 Hours, Fee $350
Online

CPR (Basic Cardiac Life Support for Health Care Professionals)
This course is designed for those who work in the health care field. It covers basic life support for the adult, child and infant. It also covers foreign body airway obstruction for the adult, child and infant and adult and child AED. Additionally, this course covers the use of a bag/valve mask, cricoid pressure, c-spine injury CPR and risk factors for cerebral vascular and cardiovascular disease.

EYK 610, Fee $89
10/12, S, 8:30 a.m.-3 p.m., Wilmington

CMA Review Course - NEW
Ready to take the Certified Medical Assistant exam and want to refresh your skills! This new course provides 24 hours of classroom instruction reviewing 25 units of course material. You will also experience an eight-hour clinical review to ensure you are ready for the exam. Text materials included.

EYK 621, Fee $575
6/18-8/10, T* 6-9 p.m., Wilmington
9/24-11/23, T* 6-9 p.m., Wilmington
*Clinical hours TBD

Do you need to renew or maintain your nursing license? Have you been out of practice or want to return to a clinical setting?

This Nurse Refresher Series fulfills the Delaware Board of Nursing (DBON) requirements for nurses returning to active practice. Contact 302.830.5204 for complete program requirements.

Accelerated RN Refresher Program*
This course is designed to provide the theory and clinical requirements to apply for recertification of the RN degree. The forty hours of theory and eighty hours of clinical are combined in a three week period. All textbooks and materials are included. Immunizations and CPR-BLS certification required.

EYK 602, Fee $1,850
7/15-8/15, MTWR, 8:30 a.m.-2:30 p.m., Stanton
*Criminal background check and drug screening are required for this course. We now provide access to these services at a cost of $30 for a criminal background check and $50 for a drug screening. Call 302.830.5204 for more information.

RN Refresher Classroom Theory
The Nursing Refresher course covers key concepts surrounding core competencies in the practice of nursing today. Areas include pharmacology, care planning and current trends in health care. This course presents theory and incorporates it into clinical hands-on experiences. Immunizations and CPR-BLS card are required. Text materials included.

Requisite for completion: EYK 610

EYK 609, Fee $1,049
9/16-12/16, M, 6-9 p.m., Stanton

RN Refresher Clinical*
This course is the secondary requirement for recertification of the RN degree. You will complete 80 clinical hours on weekends at locations TBA. Clinical schedule TBD. First class meets at the Stanton Campus for orientation and schedule distribution. Immunizations and CPR-BLS certification must be current.

EYK 617, Fee $949
10/5-12/7, S, 7 a.m.-3:30 p.m., Stanton
*Criminal background check and drug screening are required for this course. We now provide access to these services at a cost of $30 for a criminal background check and $50 for a drug screening. Call 302.830.5204 for more information.
FREE TRAINING
Ready for a new career?
Train as a Patient Care Assistant*

Health care professionals rely on the Patient Care Assistant to assist with day-to-day care some patients require. This program is designed to provide you with a diverse range of skills necessary to provide the hands-on assistance to serve the patient’s basic needs, provide special care, safety checks, obtain EKG readings, monitor vital signs, perform phlebotomy procedures, and provide emotional support to the patients and families. The three areas of training in this field are: Certified Nursing Assistant (C.N.A.), Phlebotomy, and Patient Care Technician. Upon successful completion of all three areas, students can also potentially earn up to six college credits.

All details about the program will be covered at the information sessions offered on the following dates and times:

**Information Sessions**
Tuesday, August 20, 1 p.m.
Thursday, August 22, 1 p.m.
Monday, August 26, 1 p.m.
Wednesday, August 28, 1 p.m.

*This free training program was made possible by a Department of Labor grant intended to help the unemployed and underemployed. Seating is limited. Candidates must attend an information session and meet eligibility requirements, which include:
• Availability for regular attendance each day
• Possession of a Social Security card
• Proof of birthdate and US residency
• The desire to work full-time
Additional specific eligibility requirements will be discussed at the mandatory information session.

All training and information sessions will be held at Delaware Tech’s Wilmington Campus, 300 North Orange Street, Wilmington, DE 19801. For more information call 302.830.5204.
FREE TRAINING
Paraprofessional Program*

Become a Paraprofessional - one of the largest in-demand occupations! The role of the paraprofessional is multifaceted with a large impact on students in relation to reaching their educational goals. Paraprofessionals often work in special education classrooms aiding children with physical challenges, mentoring children with behavior intervention plans, or providing one-on-one instructional assistance when needed. This 290-hour training program will provide skills needed to be successful in passing the ParaPro Certification exam. Additional training includes CPR/First Aid and Response Intervention Certification.

All details about the program will be covered at the information sessions offered on the following dates and times:

**Information Sessions**
Tuesday, October 8, 1 p.m.
Thursday, October 10, 1 p.m.
Wednesday, October 16, 1 p.m.

*This free training program was made possible by a Department of Labor grant intended to help the unemployed and underemployed. Seating is limited. Candidates must attend an information session and meet eligibility requirements, which include:
• Availability for regular attendance each day
• Possession of a Social Security card
• Proof of birthdate and US residency
• The desire to work full-time
Additional specific eligibility requirements will be discussed at the mandatory information session.

All training and information sessions will be held at Delaware Tech's Wilmington Campus, 300 North Orange Street, Wilmington, DE 19801. For more information call 302.830.5204.
Safety Courses

**OSHA Construction Safety 10-Hour Course**
The OSHA Construction Safety Outreach program is the nationally recognized safety training required to work on a construction site. Participants must successfully complete the course assessment AND attend all 10 hours of instruction in order to receive an OSHA Safety "Card." Please note: Groups of six or more may call 302.266.3400 and request a specific date and time for this training.

**EYP 703, Fee $149**
8/26-8/28, MW, 8:30 a.m.-2 p.m., MTC
10/21-11/4, Mondays, 5:30-9 p.m., MTC
11/25-11/26, MT, 8:30 a.m.-2 p.m., MTC

**Forklift Operation/Safety Certification Training**
This course is designed to meet OSHA standards by providing students with the safety and operational knowledge as well as the skills required to safely operate a forklift. Each participant will be required to capably operate a forklift through a course designed to demonstrate practical operational skills. Please note: Groups of four or more may call 302.266.3400 and request a specific date and time for this training. Students may wish to pack a lunch as a 30-minute break will be provided.

**EYP 730, Fee $189**
9/20, F, 10 a.m.-3 p.m., MTC
10/18, F, 10 a.m.-3 p.m., MTC
11/15, F, 10 a.m.-3 p.m., MTC
12/13, F, 10 a.m.-3 p.m., MTC

Inclement weather notice: Course may be postponed due to rain or inclement weather. Class will be re-scheduled for the very next (Friday) whenever possible. Students should call 302.266.3400 to verify class status if inclement weather is forecasted.
Technical Training

DIY Courses

Small Engine Repair I
One of our most popular classes teaches participants the theory of operation; how to service and trouble shoot the starter; ignition and fuel system; maintenance and tune up procedures; safety factors of small engines; and two and four-cycle design of lawn mowers, string trimmers, chain saws, snow blowers and small marine engines rated 15hp and less.

**EYY 710, Fee $295**
9/10-10/22, T, 6-9 p.m., MTC

Small Engine Repair II
A continuation of Small Engine Repair I, this course places an emphasis on higher level small engine repair, including complete engine and drive service, diagnosis, inspection and overhaul of engine systems.

**EYY 715, Fee $295**
10/29-12/17 (no class 11/26), T, 6-9 p.m., MTC

Home Repair for Women (or men)
Save hundreds, even thousands of dollars by performing your own home repairs! This course covers basic home construction, drywall, plumbing (faucets, toilets) and electricity (switches, outlets, and light fixtures). You will also learn to install molding and trim, ceramic tile, laminate, hardwood and vinyl tile flooring. This class is taught using demonstrations with various hands-on activities.

**ENJ 702, Fee $195**
10/7-11/11, M, 6-9 p.m., MTC
10/9-11/13, W, 9 a.m.-12 p.m., MTC

Heavy Equipment Operator

Get ready to join the construction, earthmoving, and excavation industry as a skilled craftsman or equipment operator! Delaware Tech’s new 16-week Heavy Equipment Operator Program is a truly unique, hands-on comprehensive program designed to fill the current needs of local employers. The program was developed with industry experts in Delaware utilizing the nationally recognized NCCER curriculum. Students are taught how to perform on the job site as skilled craftsman as well as how to operate heavy equipment through both classroom instruction, simulator training, and “in-the-seat” equipment operation. This heavy equipment operator training will include:

- Backhoes
- Bulldozers
- Excavators
- Skid Steers
- Loaders

Motivated professionals routinely enter the industry earning $15-$30 per hour as a skilled craftsman and $25-$50 per hour as a heavy equipment operator. With an aging workforce and large percentage of the industry that is ready to retire, NOW is the time to train for your construction career!

**EYD 734, 280 Hours, Fee $3,995**
9/9-12/19, MTWR, 8:30 a.m.-2 p.m., MTC
9/9-6/1/20, MW, 5-9 p.m., MTC

Note: Some simulator training may take place after class on your own time.

Call 302.266.3400 for more information.
FREE*
Diesel Technology

This new 165-hour program will provide the Delaware transportation industry with much needed skilled diesel mechanics. This training was developed by industry leaders, and is targeted for current automotive technicians that are seeking to become a diesel mechanic.

Participants that do not currently hold an ASE G1 and A1 Certification MUST provide evidence of at least two-years of full-time automotive mechanical experience. Students completing this training will be prepared to complete the ASE T-8 (Diesel Preventative Maintenance) and T-4 (Brakes) Certification Exams.

All details about the program will be covered at the information sessions offered on the following dates and times:

Information Sessions
August 7   Wednesday   3 p.m.
August 12  Monday      3 p.m.
August 15  Thursday    3 p.m.

Program Schedule:
9/9/19-4/8/20, MW, 5-8 p.m., MTC

*This free training program was funded by the Delaware Workforce Development Board and Department of Labor, and is intended to help the unemployed and underemployed. This is an equal opportunity employer/program, and auxiliary aids and services are available upon request to individuals with disabilities.
Seating is limited.
Candidates must attend an information session and meet eligibility requirements, which include:
• HS Diploma or GED
• Hold an ASE G1 and A1 Certification OR have a minimum two years of documented full-time working experience
• Demonstrate at least an 11th grade math ability (free assessment will be given)
• Possess a social security card and valid driver’s license (or state issued ID)

All training and information sessions will be held at Delaware Tech’s Middletown Training Center, 500 N. Cass Street, Middletown, DE 19709. For more information, call 302.266.3400.
Technical Training
Are you considering increasing your job skills to make advances in your career? The technical training opportunities offered at Delaware Tech are designed for those who want to upgrade their skills or change their career path.

Important Information

- Classes will not meet on the following dates:
  - July 4 - Independence Day
  - September 2 - Labor Day
  - November 28 and 29 - Thanksgiving Holiday

- Cancelled classes, due to weather or instructor illness, may be added to the end of the course

- Classes not meeting minimum enrollments may be cancelled

- Students will be notified BY EMAIL at least 24-hours prior to the advertised start of a class if it is being postponed or cancelled

Innovation and Technology Center (ITC) - Located in Churchman’s Center: 97 Parkway Circle, New Castle, DE. For more information or directions to the center, call 302.266.3300.

You may be eligible for free training!
Delaware Tech offers courses that are eligible for Workforce Innovation and Opportunity Act (WIOA) funds for students who are either unemployed or underemployed. Courses that are eligible for this funding are labeled “WIOA” in our catalog. Students are encouraged to visit the Delaware Department of Labor to see if they qualify for these funds, and should be aware that the process to determine eligibility may take from four to six weeks. Students who are not eligible for WIOA funds may seek additional support, including a Governor’s Grant or a Delaware Tech scholarship. Please contact the Delaware Department of Labor (DOL) for more information about applying for WIOA education and training funds.

DOL Numbers:
- Dover 302.739.5473
- Newark 302.453.4350
- Wilmington 302.761.8085
HVAC Technician WIOA

Delaware Tech’s highly regarded HVAC Certificate Program will prepare you to enter the high demand HVAC industry! Students completing the 278-hour program will be highly skilled in all aspects of heating, refrigeration and air conditioning. Our state-of-the-art Heating and Air Conditioning Labs allow us to provide exceptional hands-on training and industry preparation. Participants can complete the entire HVAC Certificate and be job-ready in four months simply by enrolling in each day-time course. The required courses for this certification are:

- EYP 703: OSHA Construction Safety
- EYD 736: HVAC I: Introduction to HVAC
- EYD 737: HVAC II: Heating Systems
- EYD 738: HVAC III: Refrigeration and Air Conditioning
- EYD 739: HVAC IV: Advanced HVAC-R
- EYI 780: EPA Certification Prep
- EYI 781: EPA Certification Exam

HVAC I: Introduction to HVAC
This course serves as the entry-level requirement for all other courses in the HVAC Program. Students will learn the foundation skills needed to understand and service heater and air conditioners, and topics include: electrical principals, HVAC components, meters, schematic diagrams, and systems applied to small and large HVAC equipment. In addition, students will learn to read a scale, understand common blueprint symbols, interpret various residential and commercial drawings, and prepare basic estimates. Employers routinely seek workers with the ability to read blueprints and estimate jobs/materials. Students will also review basic math concepts necessary for performing the calculations and conversion needed for preparing simple estimates in any skilled trade area. Minimum 9th grade-level math skills recommended.

EYD 736, 60 Hours, Fee $595+$100 lab+text
9/9-9/26, MTWR, 8:30 a.m.-2 p.m., ITC
9/10-11/14, TR, 6-9 p.m., ITC

HVAC II: Heating Systems
This course provides the understanding of various types of heating systems such as oil, electric, gas, heat pumps, and hydronic heating systems. Emphasis will be placed on heating fundamentals and theory of operation as well as residential heater hands-on maintenance, repair, and troubleshooting.

Prerequisite: EYD 738: HVAC I
EYD 737, 80 Hours, Fee $795+$200 lab+text
9/30-10/24, MTWR, 8:30 a.m.-2 p.m., ITC

Workforce Innovation Opportunity Act
Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.
HVAC III:
**Refrigeration and Air Conditioning**
This course provides a solid background in the theory of refrigeration and hands-on maintenance and repair of various residential air conditioning systems. Covers definitions, physics, refrigerants, theory and operating principles, and safety procedures. Emphasis is placed on refrigeration fundamentals, theory of operation, various air conditioning systems, and troubleshooting.
Prerequisite: EYD 736 and EYD 737: HVAC I and II
**EYD 738, 80 Hours, Fee $795+$200 lab+text**
10/28-11/21, MTWR, 8:30 a.m.-2 p.m., ITC

HVAC IV:
**Advanced HVAC-R**
This course provides students with the technical theory related to commercial HVAC systems, including roof-top air conditioning units, refrigeration walk-in boxes, freezers and ice machines. Students will also gain practical hands-on experience with the latest Building Automation Systems (BAS) programming and controls which have become prevalent in today's HVAC industry. In addition, students will also learn basic HVAC installation techniques, including sheet metal bending, duct-work, and plenum fabrication. Throughout this course, students will perform diagnostic and repair lab exercises to reinforce the theory learned in previous classes.
Prerequisite: EYD 737 and EYD 738: HVAC II and III
**EYD 739, 60 Hours, Fee $595+$100 lab+text**
12/2-12/19 (no classes 11/25-11/29), MTWR, 8:30 a.m.-2 p.m., ITC

OSHA Construction Safety 10-Hour Course
The OSHA Construction Safety Outreach program is the nationally recognized safety training required to work on a construction site. Participants must successfully complete the course assessment AND attend all 10 hours of instruction in order to receive an OSHA Safety “Card.” Please note: Groups of six or more may call 302.266.3300 and request a specific date and time for this training.

Welding Maintenance Technician Certificate

Begin your rewarding career in welding by completing the newly updated 262-hour Welding Maintenance Certificate Program! Our 10-station lab utilizes the finest welding equipment found in the industry today. Coupled with our expert instructional staff, our welding students receive hands-on training that is second-to-none. Participants can complete the entire welding certificate and be job ready in four months simply by enrolling in each day-time course. NOTE: Safety glasses, long pants, and steel-toed work shoes are required for all welding classes. The required courses for this certification are:

- EYP 703: OSHA Construction Safety
- EYD 726: Introduction to Welding
- EYD 727: Specialized Welding Processes
- EYD 728: Pipe Welding

WIOA Workforce Innovation Opportunity Act
Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.
OSHA Construction Safety 10-Hour Course
The OSHA Construction Safety Outreach program is the nationally recognized safety training required to work on a construction site. Participants must successfully complete the course assessment AND attend all 10 hours of instruction in order to receive an OSHA Safety “Card.” Please note: Groups of six or more may call 302.266.3300 and request a specific date and time for this training.

**EYP 703, Fee $149**
6/12-6/26, W, 5-8:30 p.m., ITC
7/24-7/31, W, 8:30 a.m.-2 p.m., ITC
9/3-9/5, TR, 8:30 a.m.-2 p.m., ITC
9/3-9/5, TWR, 5:30-9 p.m., ITC
11/6-11/20, W, 5-8:30 p.m., ITC
11/25-11/26, MT, 8:30 a.m.-2 p.m., ITC

Introduction to Welding - NEW
This updated comprehensive basic welding course will provide students with welding safety, welding theory, welding terminology, welding blueprint reading, and extensive hands-on training in Shielded Metal Arc Welding (SMAW); also known as “stick” welding. This 84-hour class also includes welding machine set up, welding symbols, type of joints, electrode classification, and metallurgy, as well as feature both vertical and overhead welding positions. Students must be prepared to weld during the first class.

**EYD 726, Fee $995 + $300 lab+texts**
9/9-10/3, MTWR, 8:30 a.m.-2 p.m., ITC
9/9-10/24, MTR, 5:30-9:30 p.m., ITC

Specialized Welding Processes - NEW
This new 84-hour course provides the hands-on training for the most specialized and productive manual welding processes in the industry today, including MIG, TIG, and Flux-Core welding. Students will receive detailed instruction about each specialized welding process, specialized machine and electrode operations, and extensive hands-on training in each welding process. Students must have completed EYD 726 Introduction to Welding or demonstrate extensive prior welding experience. Students must be prepared to weld during the first class.

**Prerequisite: EYD 726 or instructor approval**
**EYD 727, Fee $1295 + $600 lab**
10/7-10/31, MTWR, 8:30 a.m.-2 p.m., ITC
10/28-12/19 (no classes 11/25-11/29), MTR, 5:30-9:30 p.m., ITC

Pipe Welding
This 84-hour hands-on course focuses on the Shield Metal Arc Welding process of pipe welding. The training will consist of booth instruction and practice in the areas of pipe fitting, beveling, electrode selection, joint preparation and welding. As students begin to master the basics of pipe welding, the instruction will focus on the skills required for code welding.

**Prerequisite: EYD 726 and EYD 727 or instructor approval**
**EYD 728, Fee $1295 + $500 lab**
11/4-12/5 (no classes 11/25-11/29), MTWR, 8:30 a.m.-2 p.m., ITC

Plate and Pipe Welding Certification Exams
Certification exams will be given in the state-of-the-art welding lab at the ITC, and includes all necessary materials and x-ray requirements. All exams meet AWS D-1.1 standards and ASME pipe and standards. Photo ID required to take exam. Call 302.266.3300 for details.

Single Certification Courses

Computing Technology

CompTIA A+ Certification®
Held by over 1 million IT professionals worldwide, CompTIA A+ is the most essential IT certification for establishing an IT career. If you're new to the IT industry, this will help you put your best foot forward. And if you're already an IT professional, the CompTIA A+ certification validates your skills and can boost your career. Students will build a desktop computer during this course as part of their hardware and software certification training. Upon completion of the course, each student will be able to take their individual computer with them (monitor not included). Textbook included, exam fee is not included. Seating is limited to 10 participants.

EYF 601, Fee $1,795
9/10-12/17, TR, 6-9 p.m., ITC

CompTIA Network+® - NEW
CompTIA Network+ is a vendor neutral networking certification that is trusted around the world. It validates the essential knowledge and skills needed to confidently design, configure, manage and troubleshoot any wired and wireless networks. CompTIA Network+ certified individuals are in-demand worldwide. Network+ is an ISO-17024 compliant, technology certification that verifies the certified individual has the skills and knowledge needed to take on a pivotal role in building, managing, and protecting the critical asset that is the data network. Recommended as a first professional-level certification, Network+ can prepare you for jobs as a Network Administrator, Technician, or Installer. Textbook included, exam fee is not included. Seating is limited to 15 participants.

Prerequisite: Must be computer literate
EYF 790, Fee $995
9/9-12/16, MW, 6-9 p.m., ITC

AutoCAD Civil 3D®
This new course was developed in coordination with professionals from the local civil engineering industry to fill their need for trained Civil 3D Technicians. Topics will range from the basics to intermediate skills levels, and include topographic surveys and analysis, residential lot layout, street layout, profiles and sections, utility layout and profiles, and grading applications. Students should have already taken an AutoCAD course or be proficient using AutoCAD software to be successful in this course.

Prerequisite: EYF 171 or documented AutoCAD training or instructor approval.

NOTE: This course is cross-listed as CET 225: Civil CAD Applications. Students who wish to earn four college credits and/or utilize their student financial aid may register for CET 225. Course requirements for CET 225 must be met – contact 302.454.3187 for details.

EYF 730, Fee $595+text
8/27-12/3, T, 4:30-7 p.m., ITC

Advanced AutoCAD Civil 3D®
This new course was developed in coordination with professionals from the local civil engineering industry to fill their need for trained Civil 3D Technicians. Topics will include advanced settings, applications and analysis, detailed corridor assemblies and subassemblies, advanced intersections, pipe networks advanced sections, and survey data. Students will also participate in a thorough “AutoCAD Civil 3D® Certified Professional Exam” review to prepare them for successfully obtaining this national credential.

Prerequisite: EYF 730/CET 225 or instructor approval
EYF 731, Fee $595+text
This course is offered by request only. Call 302.454.3958 for more information.

EDD 171 - Intro to CAD using AutoCAD
This 3-credit course is being offered this fall at the Stanton Campus. Call 302.454.3958 to register.

Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.
**Technical Training**

### Water Certification

**Wastewater Operator Certification Review I**
This is an entry-level course designed for wastewater operators or individuals interested in water quality designed as a preparation for the state licensing exam. MDE Approved #1374-96-06, WWW 1-5, $1 WW 1-5, 7. 48Hrs/4.8CEUs.

EYI 200, Fee $395  
8/26-12/16, M, 6-9 p.m., ITC

**Wastewater Operator Certification Review II and III**
This course prepares students at a more advanced level for the state exam. MDE Approved #1373-96-06, WW 1-6, $1 WW 1-5, 7.  
Prerequisite: EYI 200  
EYI 201, Fee $395  
8/26-12/16, M, 6-9 p.m., ITC

**Base Level Water Operators Course**
This is an entry-level course that prepares the student for the state certification exam. It teaches basic water system operator responsibilities, water sources and treatment, math, pumps, disinfection, lab procedures, treatment plant operations and safety. MDE Approved #2451-02-03, 57 (1.5x) NJ-07-040612-10. 57Hrs/5.7CEUs.

EYI 237, Fee $449  
9/10-12/17, T, 6-10 p.m., ITC

**Chlorination Technology**
Review the dosing technology for basic forms of chlorine disinfection while evaluating the pros and cons of each. Learn why switching from a gas based chlorination process may not be advantageous or cost effective, why current hypochlorite users don’t routinely measure product strength, and why onsite generation systems may be appropriate and cost effective.

EYI 530, Fee $175  
9/30, M, 8:30 a.m.-4:30 p.m., ITC

---

### Surface Water Treatment
Covers concepts, treatment components, process control, and troubleshooting for the major components of a typical surface water treatment plant. Instruction and practice in solving typical operational and mathematical problems included. Bring a calculator.

EYI 550, Fee $175  
10/28, M, 8:30 a.m.-4:30 p.m., ITC

### Hypochlorite Disinfection
This course focuses on the properties, uses, and feed equipment needed when disinfecting with hypochlorites. Various mathematics principles will be addressed throughout the course including changing % concentrations, dosage/feed rates, chlorine demand/dose, and CT calculations. The course will provide PA students with the knowledge for the nongaseous hypochlorite (subclass 12) certification.

EYI 978, Fee $175  
11/18, M, 8:30 a.m.-4:30 p.m., ITC

---

### Small Engine Repair I
One of our most popular classes teaches participants the theory of operation; how to service and trouble shoot the starter; ignition and fuel system; maintenance and tune up procedures; safety factors of small engines; and two and four-cycle design of lawn mowers, string trimmers, chain saws, snow blowers and small marine engines rated 15hp and less.

EYI 710, Fee $295  
9/9-10/21, M, 6-9 p.m., ITC

### Small Engine Repair II
A continuation of Small Engine Repair I, this course places an emphasis on higher level small engine repair, including complete engine and drive service, diagnosis, inspection and overhaul of engine systems.

EYI 715, Fee $295  
11/4-12/16, M, 6-9 p.m., ITC
Safety and Environmental Courses

**EPA 608 Technician Certification Training**
This updated 8-hour course is designed to raise the level of competency for individuals taking one or more parts of the EPA 608 exam and is highly recommended for anyone seeking their Universal EPA 608 Certification.

**EYI 780, Fee $95**
7/30-8/6, TR, 5:30-9 p.m., ITC
8/20-8/22, TR, 8:30 a.m.-12:30 p.m., ITC
12/6-12/13, F, 8:30 a.m.-12:30 p.m., ITC

**Lead Safety for Renovation, Repair and Painting (RRP)**
EPA’s Renovation, Repair and Painting Final Rule (40 CFR 745) requires that renovations conducted for compensation, must be performed by Certified Firms using Certified Renovators. This 8-hour course will teach you how to comply with the EPA Renovation, Repair and Painting Rule and the HUD Lead Safe Housing Rule, and how to perform lead-safe work practices safely and effectively. This course is the EPA model course for Certified Renovators and as such meets all requirements in 40 CFR 745.90.

**EYI 786, Fee $249**
7/12, F, 8 a.m.-5 p.m., ITC
8/9, F, 8 a.m.-5 p.m., ITC
9/13, F, 8 a.m.-5 p.m., ITC
10/11, F, 8 a.m.-5 p.m., ITC
11/8, F, 8 a.m.-5 p.m., ITC
12/13, F, 8 a.m.-5 p.m., ITC

**EYI 787, Fee $129**
8/23, F, 8 a.m.-12 p.m., ITC
11/22, F, 8 a.m.-12 p.m., ITC

**EPA 608 Certification Examinations**
Air conditioning or refrigeration technicians are required to become certified by passing approved EPA examinations. As an approved certifying organization, Delaware Tech will administer Test Types I, II, III and Universal. *Photo ID required to take exam.*

**EYI 781, Fee $75**
8/8, R, 5:30-10 p.m., ITC
8/27, T, 8:30 a.m.-1 p.m., ITC
12/20, F, 8:30 a.m.-1 p.m., ITC

**Lead Safety for RRP Refresher**
This 4-hour course was developed by the EPA in collaboration with HUD to refresh the training of renovation, repair and painting contractors.

**EYI 787, Fee $129**
8/23, F, 8 a.m.-12 p.m., ITC
11/22, F, 8 a.m.-12 p.m., ITC

---

- 11/25-11/26, MT, 8:30 a.m.-2 p.m., ITC

OSHA Construction Safety 30-Hour Course
The course is a comprehensive safety program designed for anyone involved in the construction industry. Specifically devised for safety directors, foremen, and field supervisors, the program provides complete information on safety compliance issues. Call 302.266.3300 to request dates and times for this training.

**EYP 702, Fee $395**
This course is offered by request only.

OSHA Construction Safety Refresher
This 2.5-hour course serves as a yearly refresher. Please note: Groups of six or more may call 302.266.3303 and request a specific date and time for this training.

**Prerequisite: EYP 703**

**EYP 701, Fee $49**
- 7/17, W, 9-11:30 a.m., ITC
- 9/4, W, 1-3:30 p.m., ITC
- 11/8, F, 1-3:30 p.m., ITC

OSHA Waste Site Worker Training
The 40-hour HAZWOPER (Hazardous Waste Operations and Emergency Response) course prepares you for employment in hazardous waste site cleanup, treatment, storage, disposal and emergency response. Achieve certification under federal safety and environmental worker laws upon completion. Topics include chemistry of hazardous wastes and materials, site activities, safety practices, protective equipment and respirators, medical surveillance and air monitoring. Training includes classroom, teamwork/tabletop sessions, and extensive hands on exercises using PPE and air tanks.

**EYI 720, Fee $595**
- 7/29-8/2, MTWRF, 8 a.m.-5 p.m., ITC
- 10/28-11/1, MTWRF, 8 a.m.-5 p.m., ITC

OSHA Hazardous Waste Site Worker Refresher
The 8-hour HAZWOPER refresher is the annual recertification course mandated by the federal OSHA and EPA. Please note: Groups of five or more may call 302.266.3303 and request a specific date and time for this training.

**EYI 721, Fee $199**
- 7/24, W, 8 a.m.-5 p.m., ITC
- 10/23, W, 8 a.m.-5 p.m., ITC

Memberships, Certifications, and Strategic Partners
Do-It-Yourself (DIY)

Appliance Repair
Save hundreds on home appliance repairs and maintenance by learning the basics in this new DIY course. Students will learn how many of the common electro-mechanical parts of an appliance work, and how to maintain or repair these parts when necessary. Topics will include basic electricity, electrical motors, gaskets and seals, and preventative maintenance. The skills in this class can be used on many appliances, but we will focus on refrigerators, dishwashers, washers and dryers.

EYD 731, 24 Hours, Fee $295
9/25-11/13, W, 6-9 p.m., ITC

Carpentry I
This introductory course includes the proper use of woodworking hand and power tools, carpentry project layout procedures, basic stick framing, and building material applications. Students will also learn the proper use of measuring tools, an introduction to current building codes, and a review of applicable blueprint reading and math skills. Students should wear appropriate clothing for work in the carpentry lab during each class.

EYD 703, Fee $395+$100 lab+text
9/10-10/24, TR, 6-9 p.m., ITC

Carpentry II
This level II course provides students with more advanced carpentry skills training. Instruction is focused on the various skills required for renovators, and includes the construction and/or installation of cabinetry, countertops, siding, roofing, molding and trim. Students should wear appropriate clothing for work in the carpentry lab during each class.
Prerequisite: EYD 703 or instructor approval
EYD 758, Fee $395+$100 lab
10/29-12/19, TR, 6-9 p.m., ITC

Flooring and Tile Installation Techniques
This course focuses on skills required for renovators and do-it-yourselfers, and includes the methods and installation techniques of subflooring, hardwood, tile, vinyl, and laminate flooring. Methods and techniques of tile backsplash and kitchen renovations also included.

EYD 757, 21 Hours, Fee $249+$50 lab
10/28-12/16 (no class on 11/25), M, 6-9 p.m., ITC

Home Repair for Women (or men)
Save hundreds, even thousands of dollars by performing your own home repairs! This course covers basic home construction, drywall, plumbing (faucets, toilets) and electricity (switches, outlets, and light fixtures). You will also learn to install molding and trim, ceramic tile, laminate, hardwood and vinyl tile flooring. This class is taught using demonstrations with a few hands-on activities.

ENJ 702, Fee $195
9/6-10/11, F, 9 a.m.-12 p.m., ITC
9/19-10/24, R, 6-9 p.m., ITC

Home Repair for Women (or men) II
Back by popular demand! This course will serve as a continuation of the basic Home Repair course; allowing students to discover additional skills as well as gain a deeper background in several previous topics. This class is taught using demonstrations with a few hands-on activities.

ENJ 702, Fee $195
10/18-11/22, F, 9 a.m.-12 p.m, ITC
FREE* General Maintenance Technician Program

Looking for a career field that is always in need of skilled technicians? Our FREE General Maintenance Technician Program has successfully placed over 80% of our graduates in the construction, real estate, pharmaceutical, wholesale and manufacturing industries. Students will develop the skills necessary to assist in providing quality facilities maintenance support, and will be on their way to becoming an outstanding maintenance professional in just five months! Topics include:

- Blueprint Reading
- Drywall Installation
- EPA and OSHA Safety
- Plumbing
- Carpentry
- Electricity
- Flooring and Tile
- Roofing and Siding

Program Schedule:
9/30/19-2/28/20, MTWR, 8 a.m.-4 p.m., ITC
All interested participants must commit to participating in a four-week internship.

All details about the program will be covered at the information sessions offered on the following dates and times:

Information Sessions
August 20 Tuesday 2 p.m.
August 22 Thursday 2 p.m.
August 27 Tuesday 2 p.m.
August 29 Thursday 2 p.m.
September 3 Tuesday 2 p.m.
September 5 Thursday 2 p.m.

*This free training program was funded by the Delaware Workforce Development Board and Department of Labor, and is intended to help the unemployed and underemployed. This is an equal opportunity employer/program, and auxiliary aids and services are available upon request to individuals with disabilities. Seating is limited. Candidates must attend an information session and meet eligibility requirements, which include:

- Availability for regular attendance each day
- Possession of a Social Security card
- Proof of birthdate and US residency
- The desire to work full-time

Additional specific eligibility requirements will be discussed at the mandatory information session.

All training and information sessions will be held at Delaware Tech’s Innovation and Technology Center, 97 Parkway Circle, New Castle, DE 19720. For more information call 302.266.3300.
Manufacturing Technology Certificates

Manufacturing Technician Certificate
Begin your career in manufacturing as a Production Technician or Machine Equipment Operator! This program has been designed for students to obtain the basic fundamental skills needed in today’s manufacturing environment. Students will obtain a basic knowledge in electrical and mechanical fabrication, production assembly, and blueprint reading.

**EYN 760, 155 Hours, Fee $1,495**
7/1-8/21, MTW, 9 a.m.–4 p.m., ITC
9/16-12/5, MTR, 3-8 p.m., ITC

Industrial Electrical Certificate
The comprehensive industrial electrical program includes hands-on instruction in AC/DC electrical systems, electrical motor controls, variable frequency drives and motors, and electrical sensors, and electrical control system wiring.

**EYN 762, 158 Hours, Fee $1,495**
7/1-8/21, MTW, 9 a.m.–4 p.m., ITC
9/16-12/5, MTR, 3-8 p.m., ITC

Hydraulics Maintenance Certificate
Our hydraulics maintenance program includes various levels of hands-on instruction, starting with the basics of hydraulics and concluding with diagnosing and troubleshooting hydraulic systems. Topics include basic circuits, pressure and flow, valves, pumps, actuators, and motor performance.

**EYN 763, 115 Hours, Fee $1,295**
7/8-8/14, MTW, 9 a.m.–4 p.m., ITC
9/16-11/7, MTR, 3-8 p.m., ITC

Pneumatics Maintenance Certificate
This pneumatics maintenance program includes various levels of hands-on instruction, starting with the basics of pneumatics and concluding with diagnosing and troubleshooting pneumatics systems. Topics include basic circuits, pressure and flow, valves, air logic, compressors and vacuums.

**EYN 764, 80 Hours, Fee $995**
7/8-7/31, MTW, 9 a.m.–4 p.m., ITC
9/16-10/24, MWR, 3-8 p.m., ITC

Mechanical Drives Maintenance Certificate
The mechanical drives maintenance program includes hands-on instruction with various types of gears, belts, chains, shafts and shaft alignment, and lubrication concepts.

**EYN 765, 70 Hours, Fee $895**
7/8-7/29, MTW, 9 a.m.–4 p.m., ITC
9/16-10/17, MTR, 3-8 p.m., ITC

Programmable Logic Controllers (PLC) Maintenance Certificate
Our popular PLC course provides hands-on instruction on how PLC’s work, how they are programmed, and how to edit programs. Students will be able to understand the basic building block of an industrial PLC as well as run and troubleshoot computer generated ladder logic industrial processes. Topics will include basic programming, motor control, discrete I/O interfacing, event sequencing and troubleshooting.

**Prerequisite: Basic Electrical Knowledge**
**EYN 766, 80 Hours, Fee $995**
7/8-7/31, MTW, 9 a.m.–4 p.m., ITC
9/16-10/24, MWR, 3-8 p.m., ITC

Process Control Training and Troubleshooting
This Level and Flow Process Control Training and Troubleshooting course covers calibration, installation, operation, and troubleshooting for flow and liquid level process control systems and components. The troubleshooting training includes thirty-six electrical faults, six mechanical faults, PID controller programming errors, flow transmitter programming errors, and I/P converter calibration errors.

**EYN 769, 95 hours, Fee $995**
7/8-8/6, MTW, 9 a.m.–4 p.m., ITC
9/16-10/31, MTR, 3-8 p.m. ITC

Thermal Process Control Training
The Thermal Process Control Training is a continuation of the Process Control and Troubleshooting course, and teaches learners how to install, calibrate, operate, adjust, and tune thermal process control systems. The training includes a variety of real-world components, including a chiller, three types of temperature sensors (thermocouple, thermistor, and RTD), a heating loop network and an operator interface station.

**Prerequisite: EYN 769 or instructor approval**
**EYN 770, 55 hours, Fee $795**
8/7-8/26, MTW, 9am-4pm, ITC
11/4-12/5, MTR, 3-8pm, ITC

Manufacturing Training programs may be customized and delivered to local employers and their staff upon request. Training sessions can be offered during convenient days and times at either Delaware Tech or on-site at your facility. Please call Maggie Jones at 302.266.3304 for details.

Memberships, Certifications, and Strategic Partners

**Workforce Innovation Opportunity Act**
Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.
FREE*  
Automation Technology

This extensive 310-hour program will provide the Delaware Manufacturing industry with skilled workers in the following areas:

• Flow Process Control
• Thermal Process Control
• Computer Numeric Control (CNC) Programming
• Programmable Logic Controllers (PLCs)
• Electricity for Automation

No experience is necessary. However, experience in the computer, electrical, mechanical, and/or technical trades would be extremely beneficial.

Program Schedule:
8/26-12/19, MTR, 3-8 p.m., ITC

No experience is necessary. All details about the program will be covered at the information sessions offered on the following dates and times:

Information Sessions
July 22  Monday  3 p.m.  August 5  Monday  3 p.m.
July 24  Wednesday  3 p.m.  August 7  Wednesday  3 p.m.
July 29  Monday  3 p.m.
July 31  Wednesday  3 p.m.

*This free training program was funded by the Delaware Workforce Development Board and Department of Labor, and is intended to help the unemployed and underemployed. This is an equal opportunity employer/program, and auxiliary aids and services are available upon request to individuals with disabilities. Seating is limited. Candidates must attend an information session and meet eligibility requirements, which include:

• HS Diploma or GED
• Minimum two years of documented full-time working experience
• Demonstrate at least an 11th grade math ability (free assessment will be given)
• Possess a social security card and valid driver’s license (or state issued ID)

All training and information sessions will be held at Delaware Tech’s Innovation and Technology Center, 97 Parkway Circle, New Castle, DE 19720. For more information, call 302.266.3300.
Home School Programs

Building Trades I
The Home School Building Trades Program was developed to provide students exposure to a wide variety of construction professions. Topics will include carpentry, plumbing, welding, drywall installation and repair, electrical wiring, flooring and tile installation. The 140-hour program is delivered in two (2) 70-hour sessions, starting during the fall semester and finishing in the winter/spring. This class serves boys or girls ages 14-19, and students typically receive “career pathway” credit/s toward HS graduation from their home school network.

EYD 770, 70 Hours, Fee $795
9/6-12/13, F, 9 a.m.-2:30 p.m., ITC

Notes:
• Students must be associated with a home school organization.
• Class will meet at the Innovation and Technology Center (ITC) located at 97 Parkway Circle, New Castle, DE 19720.

Building Trades III
The 3rd and 4th level Home School Building Trades Program was created for students that have already completed the level I and II courses and wish to further their knowledge and skills in the building trades. Topics will include advanced carpentry, finished carpentry tool skills, HVAC basics, and masonry. The 140-hour program will be delivered in two (2) 70-hour sessions, starting during the fall semester and finishing in the winter/spring. This class serves boys or girls ages 14-19, and students typically receive “career pathway” credit/s toward HS graduation from their home school network.

EYD 794, 70 Hours, Fee $795
9/6-12/13, F, 9 a.m.-2:30 p.m., ITC

Additional youth courses can be found on page 45 or you may enjoy one of our Parent (or Grandparent) and Child Cooking classes on page 40!
Customized Technical Training
Meeting the Needs of Local Businesses

Delaware Tech’s Innovation and Technology Center (ITC) is your partner in success, delivering customized training at its state-of-the-art facility in New Castle County. With a hands-on learning approach and broad curriculum of technical programs, the ITC is poised to meet the demands of labor markets across the Mid-Atlantic. We build relationships based on trust and are committed to your success.

Our outstanding team of credentialed professionals is ready to help you reach your goals. Whether training individuals with varying skills or helping to launch a new technology across your organization, we are an effective and affordable education partner. As the only facility of its kind in the region, Delaware Tech’s ITC is a unique resource that can help strengthen your competitive edge. We develop relevant and valuable training programs by working closely with the business community. Scheduling is flexible to meet the needs of the workforce and various learning styles.

To learn how we can help your business grow through customized technical training, contact our Business Development Specialist, at 302.266.3300 in New Castle or 302.266.3400 in Middletown for a free consultation.
Live With Greater Intention

Creating the Life You Want
It is never too late to create your life to be exactly the way you want it to be. In this five-week course, you define and design your best life and begin taking steps towards creating that life. We help you find clarity around who you want to be, what you want to do, and what you want to have. This course culminates with the creation of a vision board to take home as a powerful reminder of the life you have envisioned for yourself.

ENO 767, Fee $79
7/8-8/5, M, 6:30-8 p.m., Stanton
9/4-10/2, W, 6:30-8 p.m., Stanton

Living Simply: A Plan for Decluttering Your Home and Your Life
Feeling overwhelmed by all your stuff? Put a system in place that will get rid of the clutter once and for all (physical, digital and more) to create space in your life for more beauty, more meaning and greater happiness. Set and achieve weekly goals to simplify your life with the support of a professional organizer. Marie Kondo’s book, “The Life-Changing Magic of Tidying Up” included.

9/9-10/28, M, 6:30-8:30 p.m.

Eating Healthy Made Easy - NEW
Do you want to learn how to use nutrition to improve your health, but counting calories is too overwhelming, and eating healthy seems too expensive? This course is the kickstart that you’ve been waiting for! Learn about the benefits of a whole food, plant-based diet and why it has been difficult for you to move away from sugar, chocolate and cheese. Find out how making incremental changes to your eating habits can make a big difference. Learn to choose the right foods to naturally and easily tame your appetite. The course will include easy, healthy and filling recipes along with demonstrations and food sampling!

ENO 771, $119
9/12-10/17, R, 6:30-8:30 p.m., Stanton
10/29-12/3, T, 6:30-8:30 p.m., Stanton

Health and Wellness

Aromatherapy and Energy Healing
This combined class takes place over four class sessions and will cover the how-to's of using aromatherapy as well as energy healing to deal with stress, improve sleep, and increase your vitality and overall health. Aromatherapy uses pure therapeutic grade essential oils to enhance well-being. Energy healing uses your own body's energy to rebalance and create a state of homeostasis. These are natural tools to help you be in charge of your own wellness. Each student will leave with a personalized blend of essential oils and an energy routine to enhance daily well-being.

ENO 769, Fee $79
10/2-10/23, W, 6-8 p.m., Stanton

Gentle Yoga
This course is a blended practice of gentle yoga and vinyasa flow that will allow students of all levels and abilities to explore their own expression of yoga and benefit from this practice of mind, body and spirit. Basic breath work and yoga postures as well as deep relaxation are included each week. Please bring a yoga mat, towel or blanket to class with you!

ENR 708, Fee $79
9/14-11/9, S, 9:30-10:30 a.m., Stanton
Laughter Yoga
Laughter yoga, originally founded in India, is a unique practice that has many benefits for physical and mental wellness. The practice combines laughter with yoga breathing (not poses) to bring more oxygen to the brain which provides both short and long-term benefits that are grounded in science. Benefits include stress and pain reduction, a strengthened immune system, and a better mood! Book included in class fee.
**ENR 707, Fee $79**
9/9-10/7, M, 6:30-8 p.m., Stanton

Line Dancing
“Boot Scoot” your way to fun in this instructional line dancing class. Learn all the latest dances-country, pop and more — in addition to the oldies but goodies. Wear comfortable shoes and be prepared to get your dance on. “It’s Electric! Boogie Woogie!”
**ENR 704, Fee $99**
10/9-11/20, W, 6:30-8 p.m., Stanton

Mah Jongg - NEW
Are you ready for a ridiculous amount of fun? Come learn to play Mah Jongg, the ancient Chinese tile game that has gained tremendous popularity in the U.S. Learn the rules of a game played and enjoyed by all ages and guaranteed to enhance your cognitive skills, keep your mind alert, and provide an opportunity for new friendships!
**ENO 770, Fee $89**

Pre-College Programs

**STEM UP**

Delaware is a program that provides services and resources that will increase college readiness and advance the academic standing of students in STEM education. The program will prepare students to be successful candidates to pursue degrees in healthcare or other STEM fields.

- Now recruiting students in 8th and 9th grades in New Castle County
- Must be able to commit to a long term program at Delaware Tech’s George Campus in Wilmington
- The program is FREE for students who qualify

**Program Highlights:**
- Afternoons on Campus - Tutoring and research-related projects
- Summer Academy
- College tour excursions
- Field trips to local healthcare facilities, live medical demonstrations, job shadowing and dual enrollment opportunities

**How to Apply:**
There is a competitive application process. An application packet is available online or for more information call 302.657.5125.

**TRIO - Upward Bound Math/Science**

**Grades 9 through 11**

Delaware Tech’s Upward Bound Math Science Initiative is a federally funded pre-college TRIO program designed to prepare high school students for postsecondary education programs that lead to careers in the field of math and science. In addition, the program provides students with academic support services designed to assist them in the successful completion of high school, and post secondary education. Students are exposed to a variety of educational and cultural events and are introduced to the college experience. Moreover, campus tours, cultural trips, and college centered activities are an integral part of the Upward Bound Math Science experience.

As a federally funded program, there are **no costs** to the students!

**QUALIFICATIONS:**
- Students who have completed the eighth (8th) grade and must not have completed the eleventh (11th) grade nor reached his/her eighteenth (18th) birthday before June 1st of the program year
- Students attend Christiana, Glasgow, McKean, Newark or William Penn. H.S. or living in the feeder districts
- Students must also satisfy either the taxable family income Federal eligibility (Title IV) criteria established by the U.S. Department of Education or the first generation criteria (neither parent has graduated from a four - year college) or both. Preference will be given to students who meet both of those criteria

An application packet is available online or for more information call 302.830.5220.

Applications can be found at https://www.dtcc.edu/continuing-education/youth-programs/stantonwilmington

**TRIO - Upward Bound Classic**

Upward Bound Classic is a **FREE** academic and college preparatory support program for high school students on their path to earning a college degree.

To qualify for Upward Bound Classic, students must:
- Live and/or go to a school in Colonial or Christiana School District
- Current 9th, 10th, or 11th grade student
- Students must also satisfy either the taxable family income Federal eligibility (Title IV) criteria established by the U.S. Department of Education or the first generation criteria (neither parent has graduated from a four - year college) or both. Preference will be given to students who meet both of those criteria

Upward Bound Classic participants will receive many benefits including, but not limited to:
- Academic Support
- Career Exploration
