Free Training
Food Preparation Technician Program

In-Demand Food Preparation Training at Delaware Tech

Delaware Tech’s Stanton Campus is excited to offer FREE training to prepare unemployed and underemployed Delawareans for full-time employment in the food service industry. Funded by a Delaware Department of Labor Blue Collar Grant, our Food Prep Tech program is designed to teach food preparation skills that are in high-demand by Delaware’s restaurants and food service employers. This program prepares successful graduates for entry-level positions in the industry and provides an opportunity to earn up to four certificates in food preparation and eight credits in the College’s two-year culinary associate degree program which boasts a 100% graduate placement rate.

This program is designed for Delawareans who meet the following requirements:
• At least 18-years old with a high school diploma or GED.
• Able to demonstrate a 10th-grade reading and math level on the TABE academic assessment tool.
• Unemployed or underemployed with a passion for working in the food service industry.
• Able to commit to a 5-month intensive program totaling 240 hours (80 hours hands-on kitchen experience, 80 hours classroom time, 80-hour paid internship).
• Committed to obtaining full-time employment at the conclusion of the training.

Application process:
1. Attend one mandatory information session at the Stanton Campus
   • Monday, June 10, 6-8 pm
   • Monday, June 24, 6-8 pm
   • Monday, July 15, 6-8 pm
   • Monday, July 29, 6-8 pm
2. Complete Food Prep Tech application.
3. Take a reading and math assessment.
4. Submit to a background check and drug testing.
5. If selected, participate in an interview.

For more information, please contact Lisa Hastings-Sheppard at 302.454.3956 or lhasting@dtcc.edu
Other Careers

Start Your Career as a Security Guard
There is a high demand for security guards in our area. This class provides the mandatory training for those who want to pursue licensing to become a security guard in Delaware. A voucher for the security guard exam fee is included in the class price; students will be required to pass with a minimum of 75% to receive certification. Fingerprinting and a background check are also required by the State before a license will be given.

EYD 672, Fee $189
3/18-3/20, MTW, 5-9:30 pm, Stanton

Operator of Public Pools
This workshop meets the training requirements of an approved pool operator as specified in the State of Delaware regulations on public pools. Learn about swimming pool maintenance and cost effective operations. Topics covered: filtrations, sanitation, pH/water balance, testing, spa troubleshooting, emergency procedures, and discussion on application of Delaware regulations.

EYD 610, Fee $179
4/12, F, 8:30 am-4:30 pm, Stanton
5/17, F, 8:30 am-4:30 pm, Stanton

Real Estate

Investing in Real Estate
This five-week course is an introduction to various types of residential real estate investment. You will learn common risks and rewards for each type of deal and what it takes to be a successful real estate investor. Learn the processes of flipping and wholesaling real estate as well as how to buy and manage rental property. You will also learn the fundamentals of finding deals, how to measure and test your marketing, and how to market based on your budget. Learn to manage your contacts, gather relevant information, evaluate property, analyze the deal, and execute a contract.

ENL 709, Fee $149
3/18-4/8, M, 6-9 pm, Stanton

Investing in Secured Real Estate “Paper”
This one-day workshop will cover the various types of real estate “paper” you can invest in: notes and mortgages, contracts, and options. You will learn about normal profit ranges for the different types of investments; how investments are secured; sources of investments; passive, semi-passive, and active investing; conducting due diligence and analysis of an investment opportunity; and using self-directed IRA and checkbook IRA accounts. This course will provide the how-to information to begin moving forward with investment opportunities that align with your goals.

Apply for one of these IT programs today!
CompTIA A+ Certification WIOA
Held by over 1 million IT professionals worldwide, CompTIA A+ is the most essential IT certification for establishing an IT career. If you’re new to the IT industry, this will help you put your best foot forward. And if you’re already an IT professional, the CompTIA A+ certification validates your skills and can boost your career. Students will build a desktop computer during this course as part of their hardware and software certification training. Upon completion of the course, each student will be able to take their individual computer with them (monitor not included). Textbook included; exam fee is not included. Seating is limited to 10 participants.

**EYF 601, Fee $1,795**
1/29-5/2, TR, 6-9 pm, ITC
5/1-6/28, MWF, 12-3:30 pm, ITC

CompTIA Network+ WIOA
CompTIA Network+ is a vendor neutral networking certification that is trusted around the world. It validates the essential knowledge and skills needed to confidently design, configure, manage and troubleshoot any wired and wireless networks. CompTIA Network+ certified individuals are in-demand worldwide. Network+ is an ISO-17024 compliant, technology certification that verifies the certified individual has the skills and knowledge needed to take on a pivotal role in building, managing, and protecting the critical asset that is the data network. Recommended as a first professional-level certification, Network+ can prepare you for jobs as a Network Administrator, Technician, or Installer. Textbook included; exam fee is not included. Seating is limited to 15 participants.

**Prerequisite: Must be computer literate**

**EYF 790, Fee $995**
2/11-5/22, MW, 6-9 pm, ITC

Cisco Certified Entry Level Networking Technician (CCENT)
CCENT is a standalone, entry-level Cisco certification designed to open doors to a career in networking. It validates the skills required for entry-level network support positions. Topics include Open Systems Interconnect (OSI) models, Transport Control Protocol/Internet Protocol (TCP/IP) models, dynamic routing, IP addressing and Access Control List (ACL). Students will have the opportunity to examine network protocols, including Open Shortest Path First (OSPF) and Dynamic Host Configuration Protocol (DHCP). A CCENT certification can be the first step to obtaining your CCNA which can be taken in two parts (CCENT1 and CCENT2) and is also a prerequisite certification for CCNA Security.

**EYF 657, Fee $1,499**

Certified Pharmacy Technician
Students will be trained to perform the duties of a pharmacy technician in both retail and hospital settings. Program elements include pharmacy theory and lab including pharmacy fundamentals, math, physiology, records and inventory and HIPAA regulations and compliance. Program includes (2) 25-hour internship rotations, one in a hospital and one in a retail setting. Tuition includes books, uniform, certification exam, and drug screening. Upon completion, students will be scheduled for the PTCB (Pharmacy Technician Certification Board) exam.
Prerequisite: Attendance at an info session.
EYK 607, 250 Hours, Fee $3,195
1/22-5/16, MTWR*, 9 am-2 pm, Stanton
5/15-8/29, MTWR*, 9 am-3 pm, Stanton
*Additional clinical hours required.

Dental Assistant
Learn the skills necessary to be successful in today’s dental assisting field as well as the dental profession. This 180-hour course prepares students in the fundamentals of dental assisting. You’ll receive hands-on training in the state-of-the-art Delaware Tech Dental Center as well as participate in a 35-hour internship. Upon successful completion students will achieve the Delaware State Radiology Certification as well as become CPR certified. All textbooks, uniforms, certification exam, and CPR certification included. This course meets on both Tuesday and Wednesday evenings and Friday at the indicated times below. Some distributed education will be utilized.
Prerequisite: Attendance at an info session.
EYK 606, 180 Hours, Fee $3,995
1/29-5/24, TW, 6-9 pm and F, 8:30 am-4:30 pm, Wilmington
5/28-9/13, TW, 6-9 pm and F, 8:30 am-4:30 pm, Wilmington

Medical Administrative Assistant
This program will provide training to prepare students with skills to handle all aspects of the medical office setting. The course includes basic office skills and electronic health records. The training includes a 50-hour internship experience. Upon successful completion students will be able to sit for two certificates; Certified Medical Administrative Assistant (CMAA) and Certified Electronic Health Records Specialist (CEHRS). Tuition includes books, background check, drug screening, and certification exams.
Prerequisite: Attendance at an info session.
EYC 600, 250 Hours, Fee $3,495
2/11-5/2, MTWR, 8:30 am-2:30 pm, Wilmington
Polysomnographer (Sleep) Technician Certificate

This program prepares students to work as trainees with sleep technologists in the performance of diagnostic sleep studies that are required for the evaluation and treatment of sleep disorders. Sleep recordings are made during the patient’s usual sleep hours; techs may work during the night usually in 10-12 hour shifts. This program was developed in accordance with the American Academy of Sleep Medicine (AASM), and together with the required work experience (at least 9 months) and completion of the 14 AASM A-STEP self-study modules, will prepare the student to sit for the Registered Polysomnographic Technologist Exam. The course includes 90 hours of theory training, 30 hours hands on clinical experience, textbooks, and CPR certification.

Prerequisite: Attendance at an Information Session.

EYK 600, 120 Hours, Fee $3,495
2/11-5/8, MW, 5:30-9:30 pm, Wilmington

Polysomnography CPSGT Review Course

This online course is aimed at allowing the A-STEP graduate the foundation of knowledge to be well-prepared to take the exam. Upon passing the exam the graduate will have the credential to apply for polysomnography positions in Delaware, Maryland, Pennsylvania, and New Jersey. For more information, call 302.830.5204.

EYK 605, 15 Hours, Fee $350
Online

CPR (Basic Cardiac Life Support for Health Care Professionals)

This course is designed for those who work in the health care field. It covers basic life support for the adult, child and infant. It also covers foreign body airway obstruction for the adult, child and infant and adult and child AED. Additionally, this course covers the use of a bag/valve mask, cricoid pressure, c-spine injury CPR and risk factors for cerebral vascular and cardiovascular disease.

EYK 610, Fee $89
3/9, S, 8:30 am-3 pm, Wilmington

Medical Coding Specialist

This course will prepare students to perform all of the duties required by an out-patient coder as well as prepare students for the National Certification exam. Students will be introduced to anatomy/terminology, physiology, pharmacology, ICD 10, CPT, HCPCS, as well as major nationwide medical insurance programs. Upon successful completion of the course, students will sit for the Certified Coding Specialist-Physician based (CCS-P) Examination as well as a one year student membership to AHIMA.

Prerequisite: Attendance at an info session.

EYC 609, 410 Hours, Fee $5,495
3/25-9/5, MTWR, 5:30-10 pm, Wilmington

Do you need to renew or maintain your nursing license? Have you been out of practice or want to return to a clinical setting?

This Nurse Refresher Series fulfills the Delaware Board of Nursing (DBON) requirements for nurses returning to active practice. Contact 302.830.5204 for complete program requirements.

RN Refresher Classroom Theory

The Nursing Refresher course covers key concepts surrounding core competencies in the practice of nursing today. Areas include pharmacology, care planning and current trends in health care. This course presents theory and incorporates it into clinical hands-on experiences. Immunizations and CPR-BLS card are required. Text materials included.

Requisite for completion: EYK 610

EYK 609, Fee $950
1/28-5/13, M, 6-9 pm, Stanton

Clinical*

This course is the secondary requirement for recertification of the RN degree. You will complete 80 clinical hours on weekends at locations TBA. Clinical schedule TBD. First class meets at the Stanton Campus for orientation and schedule distribution. Immunizations and CPR-BLS certification must be current.

EYK 617, Fee $900
3/16-5/11, S, 7 am-3:30 pm, Stanton

*Criminal background check and drug screening are required for this course. We now provide access to these services at a cost of $30 for a criminal background check and $50 for a drug screening. Call 302.830.5204 for more information.

Accelerated RN Refresher Program*

This course is designed to provide the theory and clinical requirements to apply for recertification of the RN degree. The forty hours of theory and eighty hours of clinical are combined in a three week period. All textbooks and materials are included. Immunizations and CPR-BLS certification required.

EYK 602, Fee $1,850
7/15 – 8/15, MTWR, 8:30 am-2:30 pm, Stanton

*Criminal background check and drug screening are required for this course. We now provide access to these services at a cost of $30 for a criminal background check and $50 for a drug screening. Call 302.830.5204 for more information.
FREE TRAINING
Ready for a new career?
Train as a Patient Care Assistant*

Health care professionals rely on the Patient Care Assistant to assist with day-to-day care some patients require. This program is designed to provide you with a diverse range of skills necessary to provide the hands-on assistance to serve the patient’s basic needs, provide special care, safety checks, obtain EKG readings, monitor vital signs, perform phlebotomy procedures, and provide emotional support to the patients and families. The three areas of training in this field are: Certified Nursing Assistant (C.N.A.), Phlebotomy, and Patient Care Technician. Upon successful completion of all three areas, students can also potentially earn up to seven college credits.

All details about the program will be covered at the information sessions coming in fall 2019.

*This free training program was made possible by a Department of Labor grant intended to help the unemployed and underemployed. Seating is limited. Candidates must attend an information session and meet eligibility requirements, which include:

• Availability for regular attendance each day
• Possession of a Social Security card
• Proof of birthdate and US residency
• The desire to work full-time

Additional specific eligibility requirements will be discussed at the mandatory information session.

All training and information sessions will be held at Delaware Tech's Wilmington Campus, 300 North Orange Street, Wilmington, DE 19801. For more information call 302.830.5204.
FREE TRAINING
Paraprofessional Program*

Become a Paraprofessional - one of the largest in-demand occupations! The role of the paraprofessional is multifaceted with a large impact on students in relation to reaching their educational goals. Paraprofessionals often work in special education classrooms aiding children with physical challenges, mentoring children with behavior intervention plans, or providing one-on-one instructional assistance when needed. This 290-hour training program will provide skills needed to be successful in passing the ParaPro Certification exam. Additional training includes CPR/First Aid and Response Intervention Certification.

All details about the program will be covered at the information sessions offered on the following dates and times:

**Information Sessions**
Wednesday, April 3, 1 pm
Tuesday, April 9, 1 pm
Thursday, April 11, 1 pm

*This free training program was made possible by a Department of Labor grant intended to help the unemployed and underemployed. Seating is limited. Candidates must attend an information session and meet eligibility requirements, which include:
• Availability for regular attendance each day
• Possession of a Social Security card
• Proof of birthdate and US residency
• The desire to work full-time
Additional specific eligibility requirements will be discussed at the mandatory information session.

All training and information sessions will be held at Delaware Tech’s Wilmington Campus, 300 North Orange Street, Wilmington, DE 19801. For more information call 302.830.5204.
Technical Training
Are you considering increasing your job skills to make advances in your career? The technical training opportunities offered at Delaware Tech are designed for those who want to upgrade their skills or change their career path.

Important Information
• Classes will not meet on the following dates:
  January 21 – Martin Luther King Day
  April 19 – Good Friday
  May 27 - Memorial Day

• Cancelled classes, due to weather or instructor illness, may be added to the end of the course

• Classes not meeting minimum enrollments may be cancelled

• Students will be notified BY EMAIL at least 24-hours prior to the advertised start of a class if it is being postponed or cancelled

You may be eligible for free training!
Delaware Tech offers courses that are eligible for Workforce Innovation and Opportunity Act (WIOA) funds for students who are either unemployed or underemployed. Courses that are eligible for this funding are labeled “WIOA” in our catalog. Students are encouraged to visit the Delaware Department of Labor to see if they qualify for these funds, and should be aware that the process to determine eligibility may take from four to six weeks. Students who are not eligible for WIOA funds may seek additional support, including a Governor’s Grant or a Delaware Tech scholarship. Please contact the Delaware Department of Labor (DOL) for more information about applying for WIOA education and training funds.

Fire Protection Training

Fire Protection Technician Certificate I
Are you ready to get started as a Certified Fire Protection Technician? Delaware Tech's 210-hour revitalized Fire Protection Program provides trainees with the necessary knowledge and skills to help save lives, property, and the very businesses where we live and work. Each year, thousands of U.S. citizens are injured or perish as a result of an uncontrolled fire. By becoming a Certified Fire Protection Technician, you will serve to keep businesses and homes safe from unwanted fires and smoke damage.

Don't wait...Get Fired Up about Fire Safety!

The six-part Certification Program includes the completion of the following:
• OSHA Construction Safety EYP 703
• Fire Protection Fundamentals (FPT 101) EYP 711
• Codes and Standards (FPT 102) EYP 712
• Building Construction Components (FPT 103) EYP 713
• Automatic Sprinkler Systems (FPT 104) EYP 714
• Fire Alarm and Low Voltage Security Systems (FPT 105) EYP 715

Fire Protection Fundamentals (FPT 101)
This exciting course is a study of the nation’s fire experience with an overview of the technology and techniques used to protect people and property. Fire codes, detection and alarm systems, water-based sprinkler systems, introductory hydraulic principles, building construction types, and fire protection ethics are covered along with human behavior in fire situations.

EYP 711, Fee $395+text
1/28-2/14, MTWR, 9 am-12:30 pm, Stanton Fire Lab
1/30-4/17, W, 6:30-9:30 pm, Stanton Fire Lab

Codes and Standards (FPT 102)
Regulation / Ordinance / Code / Standard – Which one should I use? Learn about fire prevention regulations, the Life Safety Code®, and building codes. Fire protection standards and their role in safeguarding people and property are discussed while activities apply lecture subjects to realistic situations.

EYP 712, Fee $395+text
2/18-3/7, MTWR, 9 am-12:30 pm, Stanton Fire Lab

Building Construction Components (FPT 103)
It is more than just a roof over our heads! A study in the differing construction types and classifications, building components and systems will also be highlighted, with a discussion on emerging trends in the built environment.

EYP 713, Fee $395+text
3/11-3/28, MTWR, 9 am-12:30 pm, Stanton Fire Lab

Automatic Sprinkler Systems (FPT 104)
Automatic Sprinkler Systems are ready to protect, but they are not like the movies! This course integrates discussion on the varying system types, hardware / components, hazard classes, basic system design, water supply information with hands-on use and practice of the systems.

EYP 714, Fee $395+text
3/26-5/9, TR, 6:30-9:30 pm, Stanton Fire Lab
4/1-4/18, MTWR, 9 am-12:30 pm, Stanton Fire Lab

Fire Alarm and Low Voltage Security Systems (FPT 105)
Newer and more advanced technologies have created a multitude of opportunities in how we interact and communicate…and the same is true for fire alarm systems / security systems. This course provides an essential review on the various fire alarm system types, components, basic system design, battery calculations, and the fundamentals of low-voltage I, CAT, security alarms, with hands-on fire alarm use.

EYP 715, Fee $395+text
4/29-5/9, MTWR, 9 am-12:30 pm, Stanton Fire Lab

Customized training for NICET Level I and Level II for the following NICET Fire Protection subfield certifications are available by request:

Prepare yourself for a well-paying job by completing our revised 278-hour General Maintenance Technician Program! Start your career with a major employer, including:

- Property Management Companies
- Apartment Complexes
- Shopping Centers
- General Contractors
- Construction Renovators
- Large Employers (Banks, Schools, Hospitals)
- Cities and Municipalities
- Government Agencies

Our students complete numerous hours of hands-on training in order to become experienced in several skilled trade areas, including framing, finished carpentry, plumbing, and residential wiring. Students completing this program will find themselves marketable in many areas of maintenance and the construction industry. Participants can complete the entire General Maintenance Certificate and be job-ready in four months simply by enrolling in each daytime course. The required courses for this certification are:

- EYP 703: OSHA Construction Safety
- EYD 790: General Maintenance I: Intro to General Maintenance
- EYD 791: General Maintenance II: Carpentry
- EYD 792: General Maintenance III: Skilled Trades
- EYI 786: Lead Safety for Renovation, Repair and Painting (RRP)

**General Maintenance I:**
*Introduction to General Maintenance*

This basic course teaches students the basics needed to succeed in the General Maintenance industry. Topics will provide students with an understanding of the theory, methods, and installation of drywall; a must for anyone doing renovation work. Along with demonstrations, the student will participate in hands-on applications of drywall installation and repair as well as the installation of weatherization materials, including insulation, caulk and foam, water pipe and hot water heater insulation, and window glazing. In addition, students will learn to read a scale, understand common blueprint symbols, interpret various residential and commercial construction drawings, and prepare simple estimates. Employers routinely seek workers with the ability to read blueprints and estimate jobs/materials. Students will also review basic math concepts necessary for performing the calculations and conversion needed for preparing simple estimates in any skilled trade area. No prior construction or architectural experience needed. Minimum 9th grade-level math skills recommended.

**WIOA Workforce Innovation Opportunity Act**

Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.
General Maintenance II: Carpentry
This revised “all inclusive” Carpentry course includes the proper use of woodworking hand and power tools, carpentry project layout procedures, basic stick framing, and building material applications. Students will also learn the proper use of measuring tools, an introduction to current building codes, and a review of applicable blueprint reading and math skills. Students will then proceed to more advanced carpentry skills focused on the various skills required for renovators, and includes the construction and/ or installation of cabinetry, countertops, siding, roofing, molding and trim. Students should wear appropriate clothing for work in the carpentry lab during each class.

2/18-3/21, MTWR, 8:30 am-2 pm, ITC
3/4-5/2, MTR, 5:30-9:30 pm, ITC

General Maintenance III: Skilled Trades
This course will include theory and hands-on instruction of plumbing, residential wiring, and appliance repair. Plumbing topics include threaded pipe, waste systems, fasteners, water systems, heating water, various pipe materials, and fixture installation. A comprehensive understanding of basic electrical principles and concepts will be included, along with the technical skills utilized in residential wiring. The plumbing and electrical skills learned in this course will be applied to the maintenance and repair of common residential appliances, including dishwashers, garbage disposals, washers, dryers, and water heaters. Class includes both hands-on and classroom instruction.

EYD 792, 100 Hours, Fee $995+$250 lab+text
3/25-4/25, MTWR, 8:30 am-2 pm, ITC

OSHA Construction Safety 10-Hour Course
The OSHA Construction Safety Outreach program is the nationally recognized safety training required to work on a construction site. Participants must successfully complete the course assessment AND attend all 10 hours of instruction in order to receive an OSHA Safety “Card.” Please note: Groups of six or more may call 302.266.3300 and request a specific date and time for this training.

HVAC Technician WIOA

Delaware Tech’s highly regarded HVAC Certificate Program will prepare you to enter the high demand HVAC industry! Students completing the 278-hour program will be highly skilled in all aspects of heating, refrigeration and air conditioning. Our state-of-the-art Heating and Air Conditioning Labs allow us to provide exceptional hands-on training and industry preparation. Participants can complete the entire HVAC Certificate and be job-ready in 4 months simply by enrolling in each day-time course. The required courses for this certification are:

- EYP 703: OSHA Construction Safety
- EYD 736: HVAC I: Introduction to HVAC
- EYD 737: HVAC II: Heating Systems
- EYD 738: HVAC III: Refrigeration and Air Conditioning
- EYD 739: HVAC IV: Advanced HVAC-R
- EYI 780: EPA Certification Prep
- EYI 781: EPA Certification Exam

HVAC I: Introduction to HVAC

This course serves as the entry-level requirement for all other courses in the HVAC Program. Students will learn the foundation skills needed to understand and service heater and air conditioners, and topics include: electrical principals, HVAC components, meters, schematic diagrams, and systems applied to small and large HVAC equipment. In addition, students will learn to read a scale, understand common blueprint symbols, interpret various residential and commercial drawings, and prepare basic estimates. Employers routinely seek workers with the ability to read blueprints and estimate jobs/materials. Students will also review basic math concepts necessary for performing the calculations and conversion needed for preparing simple estimates in any skilled trade area. Minimum 9th grade-level math skills recommended.

WIOA Workforce Innovation Opportunity Act

Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.
HVAC III:
Refrigeration and Air Conditioning
This course provides a solid background in the theory of refrigeration and hands-on maintenance and repair of various residential air conditioning systems. Covers definitions, physics, refrigerants, theory and operating principles, and safety procedures. Emphasis is placed on refrigeration fundamentals, theory of operation, various air conditioning systems, and troubleshooting.
Prerequisite: EYD 736 and EYD 737: HVAC I and II
EYD 738, 80 Hours, Fee $795+$200 lab+text
3/11-5/2, MTR, 5:30-9 pm, ITC
3/18-4/11, MTWR, 8:30 am-2 pm, ITC

HVAC IV:
Advanced HVAC-R
This course provides students with the technical theory related to commercial HVAC systems, including roof-top air conditioning units, refrigeration walk-in boxes, freezers and ice machines. Students will also gain practical hands-on experience with the latest Building Automation Systems (BAS) programming and controls which have become prevalent in today’s HVAC industry. In addition, students will also learn basic HVAC installation techniques, including sheet metal bending, duct-work, and plenum fabrication. Throughout this course, students will perform diagnostic and repair lab exercises to reinforce the theory learned in previous classes.
Prerequisite: EYD 737 and EYD 738: HVAC II and III
EYD 739, 60 Hours, Fee $595+$100 lab+text

WIOA Workforce Innovation Opportunity Act
Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.

---

24 Delaware Technical Community College | Stanton and Wilmington Campuses | Continuing Education Courses
OSHA Construction Safety 10-Hour Course
The OSHA Construction Safety Outreach program is the nationally recognized safety training required to work on a construction site. Participants must successfully complete the course assessment AND attend all 10 hours of instruction in order to receive an OSHA Safety Card. Please note: Groups of six or more may call 302.266.3300 and request a specific date and time for this training.

EYP 703, Fee $149
1/22-1/24, TR, 8:30 am-2 pm, ITC
1/22-1/29, TR, 5:30-9 pm, ITC
3/19-3/21, TWR, 5:30-9 pm, ITC
4/23-4/25, TR, 8:30 am-2 pm, ITC
5/14-5/21, T, 8:30 am-2 pm, ITC

Introduction to Welding - NEW
This updated comprehensive basic welding course will provide students with welding safety, welding theory, welding terminology, welding blueprint reading, and extensive hands-on training in Shielded Metal Arc Welding (SMAW); also known as “stick” welding. This 84-hour class also includes welding machine set up, welding symbols, type of joints, electrode classification, and metallurgy, as well as feature both vertical and overhead welding positions. Students must be prepared to weld during the first class.

EYD 726, Fee $995 + $300 lab+texts
1/28-2/21, MTWR, 8:30 am-2 pm, ITC
3/25-5/9, MTR, 5:30-9:30 pm, ITC
4/29-5/23, MTWR, 8:30 am-2 pm, ITC

Specialized Welding Processes - NEW
This new 84-hour course provides the hands-on training for the most specialized and productive manual welding processes in the industry today, including MIG, TIG, and Flux-Core welding. Students will receive detailed instruction about each specialized welding process, specialized machine and electrode operations, and extensive hands-on training in each welding process. Students must have completed EYD 726 Introduction to Welding or demonstrate extensive prior welding experience. Students must be prepared to weld during the first class.

Prerequisite: EYD 726 or instructor approval
EYD 727, Fee $1295 + $600 lab
2/25-3/1, MTWR, 8:30 am-2 pm, ITC
5/13-6/27, MTR, 5:30-9:30 pm, ITC
6/3-6/27, MTR, 8:30 am-2 pm, ITC

Pipe Welding
This 84-hour hands-on course focuses on the Shield Metal Arc Welding process of pipe welding. The training will consist of booth instruction and practice in the areas of pipe fitting, beveling, electrode selection, joint preparation and welding. As students begin to master the basics of pipe welding, the instruction will focus on the skills required for code welding.

Prerequisite: EYD 726 and EYD 727 or instructor approval
EYD 728, Fee $1295 + $500 lab
1/28-3/14, MTR, 8:30 am-2 pm, ITC
3/25-4/18, MTWR, 8:30 am-2 pm, ITC
7/8-8/1, MTWR, 8:30 am-2 pm, ITC
7/8-8/22, MTR, 5:30-9 pm, ITC

Plate and Pipe Welding Certification Exams
Certification exams will be given in the state-of-the-art welding lab at the ITC, and includes all necessary materials and x-ray requirements. All exams meet AWS D-1.1 standards and ASME pipe and standards. Photo ID required to take exam. Call 302.266.3300 for details.

Memberships, Certifications, and Strategic Partners
Single Certification Courses

Computing Technology

CompTIA A+ Certification

Held by over 1 million IT professionals worldwide, CompTIA A+ is the most essential IT certification for establishing an IT career. If you're new to the IT industry, this will help you put your best foot forward. And if you're already an IT professional, the CompTIA A+ certification validates your skills and can boost your career. Students will build a desktop computer during this course as part of their hardware and software certification training. Upon completion of the course, each student will be able to take their individual computer with them (monitor not included). Textbook included, exam fee is not included. Seating is limited to 10 participants.

EYF 601, Fee $1,795
1/29-5/2, TR, 6-9 pm, ITC
5/1-6/28, MWF, 12-3:30 pm, ITC

AutoCAD Civil 3D®

This new course was developed in coordination with professionals from the local civil engineering industry to fill their need for trained Civil 3D Technicians. Topics will range from the basics to intermediate skills levels, and include topographic surveys and analysis, residential lot layout, street layout, profiles and sections, utility layout and profiles, and grading applications. Students should have already taken an AutoCAD course or be proficient using AutoCAD software to be successful in this course.

Prerequisite: EDD 171 or documented AutoCAD training or instructor approval.

NOTE: This course is cross-listed as CET 225: Civil CAD Applications. Students who wish to earn four college credits and/or utilize their student financial aid may register for CET 225. Course requirements for CET 225 must be met – contact 302.454.3187 for details.

EYF 730, Fee $595+text
1/15-4/30, T, 4:30-7 pm, ITC

Advanced AutoCAD Civil 3D®

This new course was developed in coordination with professionals from the local civil engineering industry to fill their need for trained Civil 3D Technicians. Topics will include advanced settings, applications and analysis, detailed corridor assemblies and subassemblies, advanced intersections, pipe networks advanced sections, and survey data. Students will also participate in a thorough "AutoCAD Civil 3D® Certified Professional Exam" review to prepare them for successfully obtaining this national credential.

Prerequisite: EYF 730/CET 225 or instructor approval

EYF 731, Fee $595+text
2/4-5/6, M, 4-7 pm, ITC

EDD 171 - Intro to CAD using AutoCAD

This 3-credit course is being offered this spring at the Stanton Campus. Call 302.454.3958 to register.
Technical Training

Innovation and Technology Center (ITC)

Water Certification

Wastewater Operator Certification Review I
This is an entry-level course designed for wastewater operators or individuals interested in water quality designed as a preparation for the state licensing exam. MDE Approved #1374-96-06, WW 1-5, S1 WW 1-5, 7. 48Hrs/4.8CEUs.
EYI 200, Fee $395
1/28-5/13, M, 6-9 pm, ITC

Wastewater Operator Certification Review II and III
This course prepares students at a more advanced level for the state exam. MDE Approved #1373-96-06, WW 1-6, S1 WW 1-5, 7.
Prerequisite: EYI 200
EYI 201, Fee $395
1/28-5/13, M, 6-9 pm, ITC

Base Level Water Operators Course
This is an entry-level course that prepares the student for the state certification exam. It teaches basic water system operator responsibilities, water sources and treatment, math, pumps, disinfection, lab procedures, treatment plant operations and safety. MDE Approved #2451-02-03, 57 (1.5x) NJ-07-040612-10. 57Hrs/5.7CEUs.
EYI 237, Fee $449
1/29-5/7, T, 6-10 pm, ITC

Small Engine Repair I
One of our most popular classes teaches participants the theory of operation; how to service and trouble shoot the starter; ignition and fuel system; maintenance and tune up procedures; safety factors of small engines; and two and four-cycle design of lawn mowers, string trimmers, chain saws, snow blowers and small marine engines rated 15hp and less.
EYY 710, Fee $295
1/28-3/11, M, 6-9 pm, ITC

Small Engine Repair II
A continuation of Small Engine Repair I, this course places an emphasis on higher level small engine repair, including complete engine and drive service, diagnosis, inspection and overhaul of engine systems.
EYY 715, Fee $295
3/18-4/29, M, 6-9 pm, ITC

Safety and Environmental Courses

EPA 608 Technician Certification Training
This updated 8-hour course is designed to raise the level of competency for individuals taking one or more of the parts of the EPA 608 exam and is highly recommended for anyone seeking their Universal EPA 608 Certification.
EYI 780, Fee $95
1/9-1/14, MW, 5:30-9 pm, ITC
5/6-5/8, MW, 8:30 am-12:30 pm, ITC

EPA 608 Certification Examinations
Air conditioning or refrigeration technicians are required to become certified by passing approved EPA examinations. As an approved certifying organization, Delaware Tech will administer Test Types I, II, III and Universal.
*Photo ID required to take exam.
EYI 781, Fee $75
1/17, R, 5:30 pm, ITC
5/10, F, 8:30 am, ITC

Forklift Operation/Safety Certification Training
This course is designed to meet OSHA standards by providing students with the safety and operational knowledge as well as the skills required to safely operate a forklift. Each participant will be required to capably operate a forklift through a course designed to demonstrate practical operational skills. Please note: Groups of four or more may call 302.266.3300 and request a specific date and time for this training. Students may wish to pack a lunch as a 30-minute lunch break will be provided.
EYP 730, Fee $189
1/10, R, 10 am-3 pm, ITC
2/7, R, 10 am-3 pm , ITC
3/7, R, 10 am-3 pm , ITC
4/4, R, 10 am-3 pm , ITC
5/2, R, 10 am-3 pm , ITC
5/30, R, 8:30 am-1:30 pm , ITC
6/27, R, 8:30 am-1:30 pm , ITC

Inclement weather notice: Course may be postponed due to rain or inclement weather. Class will be re-scheduled for the very next (Friday) whenever possible. Students should call 302.266.3300 to verify class status if inclement weather is forecasted.

Lead Safety for Renovation, Repair and Painting (RRP)
EPA’s Renovation, Repair and Painting Final Rule (40 CFR 745) requires that renovations conducted for compensation, must be performed by Certified Firms using Certified Renovators. This 8-hour course will teach you how to comply with the EPA Renovation, Repair and Painting Rule and the HUD Lead Safe Housing Rule, and how to perform lead-safe work practices safely and effectively. This course is the EPA model course for Certified Renovators and as such meets all requirements in 40 CFR 745.90.
EYI 786, Fee $249
1/23, W, 8 am-5 pm, ITC
2/20, W, 8 am-5 pm, ITC
3/20, W, 8 am-5 pm, ITC
4/17, W, 8 am-5 pm, ITC
5/8, W, 8 am-5 pm, ITC
6/5, W, 8 am-5 pm, ITC

Workforce Innovation Opportunity Act
Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.
Lead Safety for RRP Refresher
This 4-hour course was developed by the EPA in collaboration with HUD to refresh the training of renovation, repair and painting contractors.

**EYI 787, Fee $129**
2/22, F, 8 am-12 pm, ITC
5/3, F, 8 am-12 pm, ITC

OSHA Construction Safety 10-Hour Course
The OSHA Construction Safety Outreach program is the nationally recognized safety training required to work on a construction site. Participants must successfully complete the course assessment AND attend all 10 hours of instruction in order to receive an OSHA Safety "Card." Please note: Groups of six or more may call 302.266.3300 and request a specific date and time for this training.

**EYP 703, Fee $149**
1/22-1/24, TR, 8:30 am-2 pm, ITC
1/22-1/24, TWR, 5:30-9 pm, ITC
3/19-3/21, TWR, 5:30-9 pm, ITC
4/23-4/25, TR, 8:30 am-2 pm, ITC
5/14-5/21, T, 8:30 am-2 pm, ITC

OSHA Construction Safety 30-Hour Course
The course is a comprehensive safety program designed for anyone involved in the construction industry. Specifically devised for safety directors, foremen, and field supervisors, the program provides complete information on safety compliance issues. Call 302.266.3300 to request dates and times for this training.

**EYP 702, Fee $395**
This course is offered by request only.

OSHA Construction Safety Refresher
This 2.5-hour course serves as a yearly refresher. Please note: Groups of six or more may call 302.266.3303 and request a specific date and time for this training.

**Prerequisite: EYP 703**

**EYP 701, Fee $49**
1/16, W, 9-11:30 am, ITC
3/1, F, 1-3:30 pm, ITC
5/3, F, 9-11:30 am, ITC

OSHA Waste Site Worker Training
The 40-hour HAZWOPER (Hazardous Waste Operations and Emergency Response) course prepares you for employment in hazardous waste site cleanup, treatment, storage, disposal and emergency response. Achieve certification under federal safety and environmental worker laws upon completion. Topics include chemistry of hazardous wastes and materials, site activities, safety practices, protective equipment and respirators, medical surveillance and air monitoring. Training includes classroom, teamwork/tabletop sessions, and extensive hands on exercises using PPE and air tanks.

**EYI 720, Fee $595**
1/7-1/11, MTWRF, 8 am-5 pm, ITC
4/22-4/26, MTWRF, 8 am-5 pm, ITC

OSHA Hazardous Waste Site Worker Refresher
The 8-hour HAZWOPER refresher is the annual recertification course mandated by the federal OSHA and EPA. Please note: Groups of five or more may call 302.266.3303 and request a specific date and time for this training.

**EYI 721, Fee $199**
1/18, F, 8 am-5 pm, ITC

Memberships, Certifications, and Strategic Partners
Manufacturing Technology
Certificates

Manufacturing Technician Certificate
Begin your career in manufacturing as a Production Technician or Machine Equipment Operator! This program has been designed for students to obtain the basic fundamental skills needed in today's manufacturing environment. Students will obtain a basic knowledge in electrical and mechanical fabrication, production assembly, applied math, and blueprint reading.

EYN 760, 155 Hours, Fee $1,495
2/4-3/28, MTWR, 12-4 pm, ITC
2/4-5/22, MW, 5-9pm, ITC
4/1-5/23, MTWR, 12-4 pm, ITC

Industrial Electrical Certificate
The comprehensive industrial electrical program includes hands-on instruction in AC/DC electrical systems, electrical motor controls, variable frequency drives and motors, and electrical sensors, and electrical control system wiring.

EYN 762, 158 Hours, Fee $1,495
2/4-3/28, MTWR, 12-4 pm, ITC
2/4-5/22, MW, 5-9pm, ITC
4/1-5/23, MTWR, 12-4 pm, ITC

Hydraulics Maintenance Certificate
Our hydraulics maintenance program includes various levels of hands-on instruction, starting with the basics of hydraulics and concluding with diagnosing and troubleshooting hydraulic systems. Topics include basic circuits, pressure and flow, valves, pumps, actuators, and motor performance.

EYN 763, 115 Hours, Fee $1,295
2/4-5/15, MW, 12-4 pm, ITC
2/4-5/15, MW, 5-9 pm, ITC

Pneumatics Maintenance Certificate
This pneumatics maintenance program includes various levels of hands-on instruction, starting with the basics of pneumatics and concluding with diagnosing and troubleshooting pneumatic systems. Topics include basic circuits, pressure and flow, valves, air logic, compressors and vacuums.

EYN 764, 80 Hours, Fee $995
2/4-4/17, MW, 12-4 pm, ITC
2/4-4/17, MW, 5-9 pm, ITC

Programmable Logic Controllers (PLC) Maintenance Certificate
Our popular PLC course provides hands-on instruction on how PLCs work, how they are programmed, and how to edit programs. Students will be able to understand the basic building block of an industrial PLC as well as run and troubleshoot computer generated ladder logic industrial processes. Topics will include basic programming, motor control, discrete I/O interfacing, event sequencing and troubleshooting.

Prerequisite: Basic Electrical Knowledge

EYN 766, 80 Hours, Fee $995
2/4-4/17, MW, 12-4 pm, ITC
2/4-4/17, MW, 5-9 pm, ITC

Solar Photovoltaic Troubleshooting
Students will develop the specialized skills and knowledge needed for solar PV systems, including connection and operation of the many types of solar PV systems, programming or configuring inverters and charge controllers, sizing systems and components, analyzing performance, and troubleshooting problems system wide. This course supports the knowledge needed for the NABCEP test for certified solar PV system installer.

EYN 767, Fee $495
2/4-4/17, W, 12-4 pm, ITC
2/4-4/17, W, 5-9 pm, ITC

Solar Thermal Troubleshooting Closed-Loop
Solar thermal troubleshooting for closed-loop systems emphasizes connection, operation, programming, and troubleshooting problems of both drainback and pressurized systems, and supports the knowledge needed for the NABCEP test for certified solar thermal system installer.

EYN 768, Fee $495
2/4-4/17, W, 12-4 pm, ITC
2/4-4/17, W, 5-9 pm, ITC

Memberships, Certifications, and Strategic Partners

Workforce Innovation Opportunity Act
Approved by the Delaware Workforce Development Board and Department of Labor. Equal Opportunity Employment Program.
Do-It-Yourself (DIY)

Appliance Repair
Save hundreds on home appliance repairs and maintenance by learning the basics in this new DIY course. Students will learn how many of the common electro-mechanical parts of an appliance work, and how to maintain or repair these parts when necessary. Topics will include basic electricity, electrical motors, gaskets and seals, and preventative maintenance. The skills in this class can be used on many appliances, but we will focus on refrigerators, dishwashers, washers and dryers.

**EYD 731, 24 Hours, Fee $295**
3/27-5/15, W, 6-9 pm, ITC

Flooring and Tile Installation Techniques
This course focuses on skills required for renovators and do-it-yourselfers, and includes the methods and installation techniques of subflooring, hardwood, tile, vinyl, and laminate flooring. Methods and techniques of tile backsplash and kitchen renovations also included.

**EYD 757, 21 Hours, Fee $249+$50 lab**
2/6-3/20, W, 6-9 pm, ITC

Home Repair for Women (or men)
Save hundreds, even thousands of dollars by performing your own home repairs! This course covers basic home construction, drywall, plumbing (faucets, toilets) and electricity (switches, outlets, and light fixtures). You will also learn to install molding and trim, ceramic tile, laminate, hardwood and vinyl tile flooring. This class is taught using demonstrations with a few hands-on activities.

**ENJ 702, Fee $195**
1/25-3/1, F, 9 am-12 pm, ITC
2/7-3/14, R, 6-9 pm, ITC

Home Repair for Women (or men) II
Back by popular demand! This course will serve as a continuation of the basic Home Repair course; allowing students to discover additional skills as well as gain a deeper background in several previous topics. This class is taught using demonstrations with a few hands-on activities.

**ENJ 702, Fee $195**
3/8-4/12, F, 9 am-12 pm, ITC

Patio, Pavers and Walls
Build your dream backyard patio, fire-pit or retaining wall this year; it may be easier than you think when you know the tricks. This class will provide participants with the skills needed to complete any stone project by including in class demonstrations and hands-on labs using bricks, paver stones and engineered blocks. Both dry and mortar construction techniques will be covered.

**EYD 767, Fee $295**
3/7-4/11, R, 6-9 pm, ITC

Preparatory Mathematics for the Skilled Trades
Math is a major component in ALL technical fields! This course will focus on the operations of whole numbers, fractions, decimals, measurement, percentages, and conversions as well as basic algebra, geometry and trigonometry that are applied to exercises and practical problems found in the trades. Local industry advisors have highly recommended this course for anyone interested in managing or supervising workers, crews, and on-site projects.

**EYD 700, Fee $449+text**
This course is offered by request only.
FREE TRAINING
Construction Craftsman and Heavy Equipment Operator Program

Get ready to join the construction, earthmoving, and excavation industry as a skilled craftsman or equipment operator! Delaware Tech’s new 16-week Construction Craftsman and Heavy Equipment Operator Program is a truly unique, hands-on comprehensive program designed to fill the current needs of local employers. The program was developed with industry experts in Delaware utilizing the nationally recognized NCCER curriculum. Students are taught how to perform on the job site as skilled craftsman as well as how to operate heavy equipment through both classroom instruction and “in-the-seat” equipment operation. This heavy equipment operator training will include:
• Backhoes
• Bulldozers
• Excavators
• Loaders
• Skid Steers

Motivated professionals routinely enter the industry earning $15-$30 per hour as a skilled craftsman and $25-$50 per hour as a heavy equipment operator. With an aging workforce and large percentage of the industry that is ready to retire, NOW is the time to train for your construction career!

No experience is necessary. All details about the program will be covered at the information sessions offered on the following dates and times:
Information Sessions
Tuesday, December 4, 1 pm
Tuesday, December 11, 1 pm

For more information, call 302.266.3300.

Information sessions will be held at Delaware Tech’s Innovation and Technology Center, 97 Parkway Circle, New Castle, DE 19720.
FREE TRAINING*
Certified Production Technician

Delaware Tech is proud to offer a FREE* Certified Production Technician program in cooperation with the Department of Labor and the America’s Promise Grant. This extensive program will provide the Delaware Manufacturing industry with skilled workers in the following areas:
• Production
• Assembly
• Hydraulics
• Pneumatics
• Mechanical Drives
• Electrical Maintenance
• Basic Logic Controllers

Program Schedule:
1/28-6/20, MTWR, 11 am-4 pm, ITC

No experience is necessary. All details about the program will be covered at the information sessions offered on the following dates and times:

Information Sessions:
Wednesday, January 9, 1 pm
Monday, January 14, 1 pm
Thursday, January 17, 1 pm

For more information, call 302.266.3300.

Information sessions will be held at Delaware Tech’s Innovation and Technology Center, 97 Parkway Circle, New Castle, DE 19720.

Memberships, Certifications, and Strategic Partners
FREE TRAINING
HVAC Technician Program

If you are looking for a career field that is always in demand and enjoy working with your hands, HVAC may be for you! Our 520-hour Grant Funded HVAC Technician Program teaches students the skills necessary to obtain an entry-level job in the residential HVAC industry. Students will start with the basics of electricity, heating and cooling theory, and proceed on to wiring, piping, installing and troubleshooting heating and AC equipment.

**Topics include:**
- OSHA Safety Training
- Blueprint Reading
- Math for Technicians
- Electrical Controls
- Heating
- Cooling and Refrigeration
- HVAC Installation
- EPA 608 Certification

**Program Schedule:**
2/4-6/28, MTWR, 8:30 am-4 pm, ITC
All interested participants must commit to participating in a 100-hour internship.

All details about the program will be covered at the information sessions offered on the following dates and times:

**Information Sessions**
- Tuesday, January 8, 3 pm
- Thursday, January 10, 3 pm
- Tuesday, January 15, 3 pm
- Thursday, January 17, 3 pm

*This free training program was made possible by a Department of Labor grant intended to help the unemployed and underemployed. Seating is limited. Candidates must attend an information session and meet eligibility requirements, which include:
- Availability for regular attendance each day
- Possession of a Social Security card
- Proof of birthdate and US residency
- The desire to work full-time
Additional specific eligibility requirements will be discussed at the mandatory information session.*

All training and information sessions will be held at Delaware Tech's Innovation and Technology Center, 97 Parkway Circle, New Castle, DE 19720. For more information call 302.266.3300.
Customized Technical Training
Meeting the Needs of Local Businesses

Delaware Tech’s Innovation and Technology Center (ITC) is your partner in success, delivering customized training at its state-of-the-art facility in New Castle County. With a hands-on learning approach and broad curriculum of technical programs, the ITC is poised to meet the demands of labor markets across the Mid-Atlantic. We build relationships based on trust and are committed to your success.

Our outstanding team of credentialed professionals is ready to help you reach your goals. Whether training individuals with varying skills or helping to launch a new technology across your organization, we are an effective and affordable education partner. As the only facility of its kind in the region, Delaware Tech’s ITC is a unique resource that can help strengthen your competitive edge. We develop relevant and valuable training programs by working closely with the business community. Scheduling is flexible to meet the needs of the workforce and various learning styles.

To learn how we can help your business grow through customized technical training, contact Maggie Jones, Business Development Specialist, at 302.266.3304 for a free consultation to help ensure your workforce can compete in today’s market!

Health and Wellness

Aromatherapy and Energy Healing - NEW
This combined class takes place over four class sessions and will cover the how-to's of using aromatherapy as well as energy healing to deal with stress, improve sleep, and increase your vitality and overall health. Aromatherapy uses pure therapeutic grade essential oils to enhance well-being. Energy healing uses your own body's energy to rebalance and create a state of homeostasis. These are natural tools to help you be in charge of your own wellness. Each student will leave with a personalized blend of essential oils and an energy routine to enhance daily well-being.
ENO 769, Fee $79
1/16-2/6, W, 6-8 pm, Stanton

Gentle Yoga - NEW
This course is a blended practice of gentle yoga and vinyasa flow that will allow students of all levels and abilities to explore their own expression of yoga and benefit from this practice of mind, body and spirit. Basic breath work and yoga postures as well as deep relaxation are included each week. Please bring a yoga mat, towel or blanket to class with you!
