About Us

Delaware Technical Community College offers comprehensive educational opportunities including career, general, developmental and transfer education, lifelong learning, and workforce training.

Through the division of Workforce Development and Community Education, a variety of pre-college activities are offered. College staff provide mentoring, education, enrichment and motivation to Delaware's youth. Exceptional programs are developed and delivered to empower and guide youth as they reach personal goals and achieve academic and professional success. In-school, after-school and summer programs are offered at both the Stanton and George Campuses.

The Camp Programs represent one of the fastest growing initiatives at the Stanton and George Campuses. Our signature program, **Camp-On-Campus**, allows children to explore a variety of enrichment activities throughout the summer while experiencing the college environment. Each program has been designed to be educational and entertaining and is staffed by experienced educators and camp counselors. **STEM Camps** provide activities to reinforce competencies required by the state educational standards. **Specialty Camps** enable students to explore new areas of interest. **Career and Sports Camps**, developed in conjunction with college faculty and members of the business community, provide students with relevant, age-appropriate career awareness experiences.

The size of each camp is limited and openings are filled on a first-come, first-served basis. Check out all that Delaware Tech has to offer and register early!
